**STAFF MEETING MINUTES
LANCASTER COUNTY BOARD OF COMMISSIONERS
THURSDAY, SEPTEMBER 17, 2020
COUNTY-CITY BUILDING
ROOM 112 – CITY/COUNTY CHAMBERS
8:30 A.M.**

Commissioners Present: Sean Flowerday, Chair; Rick Vest, Vice Chair; Roma Amundson, Deb Schorr and Christa Yoakum

Others Present: Dave Derbin, Chief Administrative Officer; Ann Ames, Deputy Chief Administrative Officer; Dan Nolte, County Clerk; and Leslie Brestel, County Clerk's Office

Advance public notice of the Board of Commissioners Staff Meeting was posted on the County-City Building bulletin board and the Lancaster County, Nebraska web site and provided to the media on September 16, 2020.

The Chair noted the location of the Open Meetings Act and opened the meeting at 8:33 a.m.

AGENDA ITEM

1. APPROVAL OF STAFF MEETING MINUTES FOR SEPTEMBER 10, 2020

MOTION: Yoakum moved and Amundson seconded approval of the September 10, 2020 Staff Meeting minutes. Amundson, Schorr, Yoakum, Vest and Flowerday voted yes. Motion carried 5-0.

2. WEEKLY H.R. PAYROLL SYSTEM TRANSITION UPDATE – Kevin Nelson, Accounting Operations Manager, Clerks Office

Nelson reported the current paycheck will be the last processed through the Tesseract payroll system. Future paychecks will be processed through Oracle HCM.

The new Human Resources (HR) module will allow employees to update information and data themselves, such as address and tax withholdings. Additionally, the system will allow for compliance with state income tax revenue laws, and consistent deduction dates for dental and vision plans, garnishments and child support orders. He noted, while the total monthly amounts due to, or paid by employees would not change, it could influence some employees' biweekly paychecks.

Nelson inquired how these updates should be communicated to employees. It was the consensus of the Board for emails pertaining to the payroll system update to come from the Board. Schorr requested Nelson draft two separate emails, one informing employees they can update their own data and a second to employees affected by the improvements in fiscal compliance. Derbin requested the completed drafts be sent to both he and Ames.

Nelson stated the Time and Labor module has been live for five weeks and that there are issues with calculating overtime. He said the consultant, City Attorney's Office, County Attorney's Office, Human Resources, City Payroll Department and himself reviewed the various leave types to determine if they are included under FLSA when calculating overtime. It was decided at that meeting that legal holiday hours should not count towards the 40-hour work week and Oracle was programmed accordingly. It was noted that this practice has not been applied consistently across the County.

Derbin stated he will assist with contacting the County Attorney's Office and HR for future discussion.

Nelson noted one department issued a mandate that TimeClock Plus is not to be used from personal devices. Dennis Meyer, Budget and Fiscal Officer, added Information Services (IS) charges departments a fee per device that accesses the County network, and departments may be concerned about IS costs associated with employee personal devices. Nelson said problems can occur with paychecks due to lack of transparency for hours worked. Additionally, all non-exempt employees should be using TimeClock Plus except for the Corrections Department and Sheriff's Office.

Nelson reported one department has been providing taxable fringe benefits, such as county vehicle usage, to employees. This information has not been provided to the centralized payroll team for the past two pay periods, but he is hoping to resolve this soon. He noted there are exceptions in the federal tax law for emergency management and law enforcement.

Lastly, Nelson said he is having communication difficulties with one department and his offers of assistance have not been answered. There was consensus that someone from the Board will follow up on this situation.

Amundson stated she felt the new payroll system is eliminating inconsistent payroll issues and will lead to better practices.

3. INSURANCE RENEWALS – Sue Eckley, Risk Manager; Kari Wiegert, Risk Management Specialist; and Tom Champoux, President, Risk Consultant, UNICO

Eckley and Champoux reviewed the renewal rates (see agenda packet).

Champoux noted the inland marine coverage increased due to the transfer of misclassified vehicles from the auto schedule.

Regarding the Sheriff's Office autos, Champoux said the insurance is for the physical damage only, and no claims were filed this year. The liability claims fall under the General liability policy.

The Workers' Compensation is a two-year policy and the Boiler/Machinery coverage is a three-

year policy; therefore, those premiums remained unchanged.

Champoux reported the cyber liability premium increased and, as presented, the coverage increased from \$2,000,000 to \$3,000,000 as the \$2,000,000 option was not offered. An option for \$5,000,000 is available for a premium of \$42,861. Eckley said she is comfortable with a \$3,000,000 limit.

When asked about two rental equipment claims totaling \$65,000, Champoux stated those claims were paid through the auto insurance line.

Champoux reviewed the carrier ratings (see agenda packet, page 4).

Regarding future rates, Champoux said if multiple years of rates can be locked in, he will do so; however, it is not possible in all areas. Additionally, he does not expect the property market to improve in the next year.

Schorr requested a visual aid of how the overall premium has changed over the past 20 years.

Derbin noted the insurance documents will be on a future Tuesday agenda.

4. MAIL-IN VOTING TIMELINES – David Shively, Election Commissioner

Flowerday distributed a postcard from the United States Postal Service (USPS) with mail-in ballot recommendations (Exhibit 1). Shively confirmed his office would be able to meet the timeframes as printed on the mailing. He said to date approximately 60,000 voters have requested mail-in ballots, and he expects the requests to increase.

Shively stated there are 200 polling positions to fill. Also, the additional ballot boxes have arrived and are waiting to be decaled before being distributed to the various libraries.

5. EXECUTIVE SESSION (PENDING LITIGATION) – Jenifer Holloway and Dan Zieg, Deputy County Attorneys

MOTION: Schorr moved and Amundson seconded to enter Executive Session at 9:27 a.m. for the purpose of pending litigation, and to protect the public interest.

The Chair said it has been moved and seconded that the Board enter Executive Session.

ROLL CALL: Amundson, Schorr, Yoakum, Vest and Flowerday voted yes. Motion carried 5-0.

The Chair restated the purpose for the Board entering Executive Session.

MOTION: Schorr moved and Amundson seconded to exit Executive Session at 9:39 a.m. Amundson, Schorr, Yoakum, Vest and Flowerday voted yes. Motion carried 5-0.

6. COVID-19 UPDATE AND RESPONSE

Flowerday reported Pat Lopez, Lincoln-Lancaster County Health Director, will email each Commissioner an update.

Amundson said she received a phone call from a constituent regarding the mask mandate.

7. DEPUTY CHIEF ADMINISTRATIVE OFFICER REPORT

A. Lancaster County 2020 Priorities

No updates were given.

B. Enterprise Emails

It was the consensus of the Board to send a memo to Information Services (IS) stating all Enterprise email communications need to be vetted by the Board before being sent.

8. DISCUSSION OF BOARD MEMBER MEETINGS ATTENDED

A. Parks & Recreation Advisory Board Meeting – Vest

Vest did not attend the meeting.

B. Realtors Association Government Affairs Committee – Amundson / Schorr

Amundson reported there were discussions on affordable housing and workforce development, a dinner fundraiser to honor fallen law enforcement officers, registry and licensure requirements for home inspections, and the Assessor/Register of Deed's Office video inspections of properties due to COVID. Schorr added there was discussion on the Realtors Association providing funding to political candidates but not endorsements.

Regarding a Railroad Transportation Safety District (RTSD) project at a crossing at 84th and Old Cheney, Schorr said the RTSD is working to increase safety measures, however, they may not be in place before trains resume using the tracks.

C. Region V Behavioral Health Advisory Committee Meeting – Yoakum

No meeting was held.

D. Region V Behavioral Health Governing Board Meeting – Yoakum

No meeting was held.

E. LIBA Elected Officials Forum – Schorr / Vest

Schorr and Vest stated the directed health measures and the impact on small businesses was discussed.

The Board will discuss future meeting attendance in 2021.

F. Visitors Promotion Advisory Committee – Amundson

No meeting was held.

OTHER MEETINGS

Yoakum reported the New Americans Task Force is applying for a Gateways for Growth grant to be used to align integration planning with a strategic plan.

9. SCHEDULE OF BOARD MEMBER MEETINGS

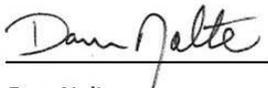

Informational only.

10. EMERGENCY ITEMS

There were no emergency items.

11. ADJOURNMENT

MOTION: Schorr moved and Vest seconded to adjourn at 10:02 a.m. Amundson, Schorr, Yoakum, Vest and Flowerday voted yes. Motion carried 5-0.

Q2 2020 In Review

Summary of Investment Returns

Quarterly Synopsis

- World equity markets surged in Q2. A number of global economies emerged from COVID-19 lockdown, boosting stocks.
- U.S. equity was positive. Economic activity returned, as did investor optimism, after the initial virus-related lockdown.
- International equities also rose. Much of the virus outbreak in the Eurozone was contained and countries reopened.
- Emerging market equity gained. China's post-outbreak resurgence powered EM equities, though other EM countries still struggled.
- U.S. fixed income was positive, but lagged stocks. While Federal Reserve support bolstered bonds, investors favored riskier assets in the quarter.
- Non-U.S. fixed income also rose. A weaker USD helped unhedged non-US debt.
- Hedge funds gained, with equity hedge strategies notching the highest return among sub-strategies.

Q2 2020 In Review: U.S. Economy

GDP Growth

- U.S. GDP growth fell by -32.9% in Q2 2020, the steepest drop since 1947, when records began. The COVID-19 related lockdowns in the country led to the historic economic contraction.
- Personal consumption, exports, inventories, investment and spending by state and local governments all declined sharply.
- Spending on health care and clothing also dropped.
- However, personal income rose dramatically, as the federal government's stimulus program took effect.

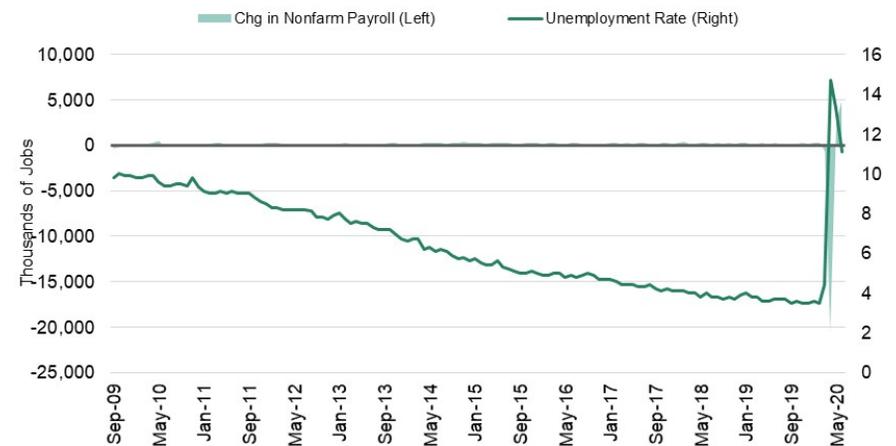

U.S. Real GDP Growth

Employment Picture

- The unemployment rate was 11.1% in June, down from its April peak but still well above its February low. Nonfarm payrolls fell by 13.2 million over the quarter.
- The employment and leisure sector gained 2.1 million jobs in June, and food and drinking establishments rose by 1.5 million.
- Retail gained 740,000 jobs in June.
- Most sectors gained in June, though mining lost 10,000 jobs in the month.

Q2 2020 In Review: U.S. Economy

Consumer Confidence and Spending

- Sentiment plummeted in Q2. The Conference Board's Consumer Confidence Index decreased from 120 at the end of March to 98 at the end of June.
- Personal consumption expenditures rose in June.
- The global pandemic and its effects on the economy and employment levels stung sentiment in the quarter.

Retail Sales

- Retail sales ended June up 4.98% from one year ago.
- Sales increased 5% in June over a year ago. Spending surged in autos, clothing, furniture and electronics.
- While economic reopening has boosted sales, economists warn that sales could fall once again if a resurgence of the virus forces the US to close the economy once again.

Q2 2020 In Review: Global Economy

World GDP Growth

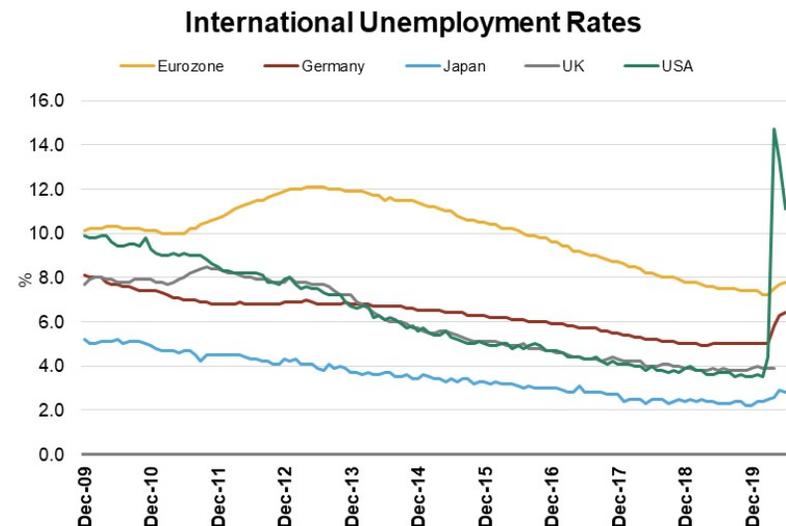

- Eurozone GDP fell -12.1% quarter over quarter (QoQ), below market expectations. The Eurozone's annual growth rate dropped 40.3%, the sharpest decline since records began in 1995.
- China's GDP rate rose 11.5% in Q2. Industrial production and retail sales rose in China as that country emerged from lockdown.
- Japan's GDP shrank -0.6% QOQ in Q1**. That figure was better than the expected -0.9% decline, though Japan continues to struggle with economic fallout from the outbreak.
- U.S. GDP fell -32.9% in Q2.

Note that the figures in the graph above represent the percent change in real GDP from the previous quarter, not the annual growth rate of these economies.

Global Employment Picture

- Eurozone unemployment rose to 7.8% in June 2020**. Germany's unemployment rate was on the low end of the EU at 6.2%, while Italy's rate was 8.8%.
- The fallout from the COVID-19 pandemic caused unemployment to rise in the Eurozone, even at a time when countries are reopening after lockdown.
- Japan's unemployment rate rose to 2.8% in June.

Global Equity Performance and Valuations

- All global markets experienced strong recoveries in Q2, as several major economies began phased re-openings. The US continued to outperform both International Developed and Emerging Markets, as large US tech names drove returns during Q2.
- Technology was the top performing sector in the MSCI ACWI, returning just under 13% YTD as remote working arrangements have benefited several industries within the sector, and investors flocked to mega cap stocks such as Amazon, Apple, and Microsoft in search of companies that could weather the COVID-19 storm.
- Oil prices have rebounded, as major oil producers reduced their output and global re-openings increased demand. Improving global PMI numbers and discussions within several major central banks around continued stimulus have led to an increase in investor confidence.
- The sudden market rebound drove valuations to 20-year highs in several categories, including US mid cap and Emerging Markets, while most major markets are now above their 20-year medians.

Data range is from 3/31/00-3/31/20. P/E ratios are forward 12 months.

Performance

- The government's multi-trillion dollar stimulus package took effect during the quarter, which, combined with a strong job and economic recovery due to state re-openings, boosted US markets during the second quarter.
- Fears surrounding the COVID-19 outbreak continue to be an issue, with an uptick in cases in large parts of the United States during the month of June.
- Growth significantly outperformed value in Q2 with the Russell 1000 Growth index returning nearly 10% YTD despite COVID-19's impact. Small cap companies led mid cap and large cap as the Russell 2000 outperformed the Russell 1000 by almost 4%.
- Increasing retail sales drove a strong quarter for consumer discretionary, while a rise in oil prices benefitted the energy sector. More defensive sectors, such as consumer staples and utilities struggled, due to the risk on environment.

Performance

- Following a significantly negative first quarter, the markets quickly recovered and the second quarter was one of the strongest in the past 20 years. Both the MSCI World ex US and MSCI EAFE indices rose by 15%.
- European economies have cautiously started to reopen as they emerge from the first wave of COVID-19 and are supported by government stimulus measures. Eurozone equities have rebounded as these lockdown restrictions have begun to ease. The U.K., however, despite its rise of roughly 8%, is still lagging behind some of the major economies in the Euro area as it struggles to contain the virus.
- Japan rose by almost 12%. This rebound was partly a result of good news surrounding the country's containment of COVID-19. Also, the Japanese government approved a stimulus package equaling roughly 40% of GDP to prevent any further economic decline.
- All MSCI EAFE sectors were positive, with the exception of energy, though this only experienced a fraction of a loss.

Performance

- Despite an acceleration in the number of daily cases of COVID-19, Emerging Markets were able to recover in Q2 by outperforming Q1 returns by 41%. This strong recovery helped Emerging Markets outperform Developed International Equity. However, EM is still underperforming US Equity for the quarter and YTD.
- The Latin America region posted the highest returns, led by Argentina (43%), Brazil (22%) and Chile (13%). This can be attributed to the weakening of the US dollar and countries' monetary easing and stimulus packages. Though Chinese equities trailed most of its regional peers in Q2. China is the only EM country with a positive YTD return (2%).
- All EM sectors posted positive absolute returns in Q2. The healthcare sector was the best performer (37%), while real estate and financials were the only two sectors that posted single digit returns. Due to the recovery, IT, telecom, healthcare and consumer discretionary are the four sectors showing a positive return for the trailing one year.

Q2 2020 In Review: Fixed Income Overview

Yield Curve

- Yields rose across the front end of the curve and the tail end of the curve, while they fell across the midsection.
- Shorter-maturity yields less than 1-year rose, resulting in a return of liquidity in the Treasury market. The 1-month Treasury ended the quarter yielding 0.13%, which was up 8 basis points from the prior quarter.
- Treasury yields with maturities between 1- and 10-years fell. The 10-year yield remained relatively stable, as unemployment data improved but GDP data and virus fears led to continued investor concern.
- Longer-maturity yields rose slightly as well, with the 30-yr yield ending the quarter at 1.41%, a 6 basis point increase over the prior quarter.

United States Treasury Yield Curve

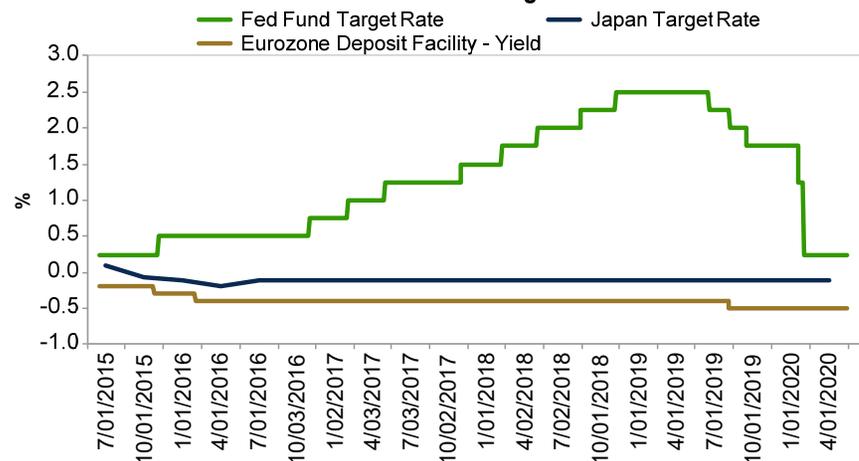

Monetary Policies/Global Interest Rates

- Central bank deposit rates remained negative in Japan and Europe.
- Despite rate cuts in the prior quarter, the U.S. continues to be a global outlier with its positive policy rate at 0.25%. Policy rates in the Eurozone and Japan remain negative.
- The policy rate in the U.S. remained unchanged from the prior quarter despite the Fed injecting billions of dollars into the economy through various COVID-19 economic relief programs.

Performance and Spreads

- The U.S. Aggregate Index was positive in Q2. All sectors gained, with high yield and investment grade delivering the strongest performance (10.18% and 8.98% respectively).
- Despite the significant rebound in U.S. corporate credit relative to Q1, performance of the U.S. Aggregate ended the quarter down 25 basis points from Q1. The Agg's sizable weight in Treasuries stung in the quarter. T-Bills ended the quarter at 0.14%, representing a 25 basis point decrease from Q1.
- Domestic fixed income spreads tightened across all sectors but MBS over Q1, with ABS showing the largest decrease over the prior quarter. High yield spreads continue to be significantly wide, but to a lesser degree than in Q1.

Global Performance and Yields

- Government yields fell in Q2 across the U.S., Canada, and the UK. Government yields were flat in Japan and slightly decreased in Germany.
- Central bank policies globally have implemented more stimulus measures with the global economic shutdowns and as unemployment claims continued to rise in the U.S.
- The British pound, euro, and JPY depreciated relative to the U.S. Dollar.
- Emerging market debt ended the quarter with strong returns. After turning negative in April, oil prices recovered later in Q2, resulting in appreciation for oil-sensitive currencies.

Q2 2020 In Review: Private Equity

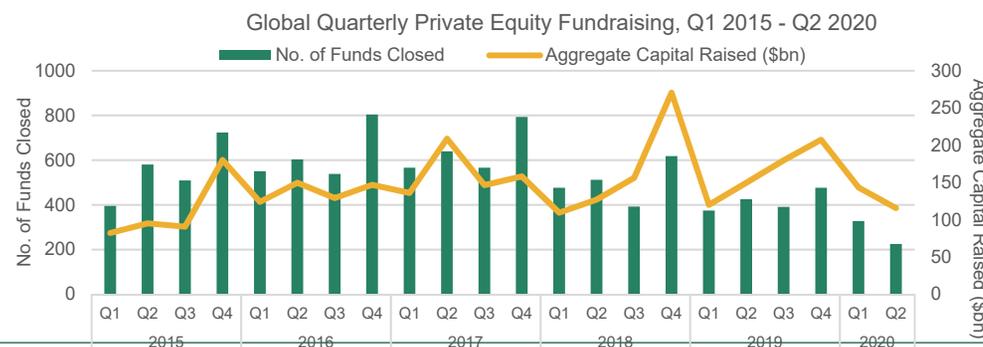

Performance

- The total return for US private equity funds was -7.5% in Q1 2020* and 5.8% over the 1-year period ending Q1.
- The 3-, 5-, 10-, 15-, and 20-year returns for US private equity funds were 13.5%, 12.2%, 14.6%, 12.4%, 8.7%, respectively, at the end of Q1 2020.
- While not entirely immune from the market selloff in March, private equity returns did not suffer the same drawdown as public markets. However, Q2 2020 performance will be more telling of the broader impact to private equity returns.
- Buyout strategies were the driving force behind the Q1 results, down -9.7% with Venture (-2.8%), and Growth (-8.4%) lower for the quarter.

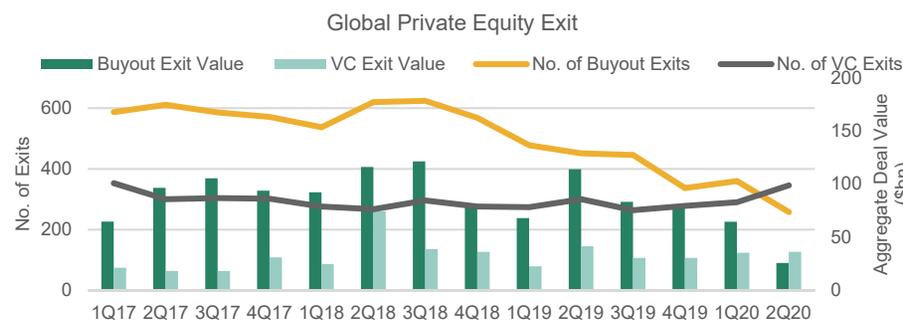

Fundraising

- Globally, private equity funds raised approximately \$115.7 billion across 225 funds in 2Q 2020. This was the lowest number of fund closings in a quarter in the past 5 years.
- As of July 2020, there were currently 3,754 private equity funds raising capital targeting an aggregate \$884 billion.

Exit Activity

- Buyout activity and value saw dramatic decreases in 2Q 2020 while Venture Capital experienced increases in exit activity (19%) and relatively flat exit value (3%)
- YoY Buyout exit value (-77%) and exit activity (-43%) were tempered, with Venture Capital exit value slightly down (-13%) with an uptick in exit activity (15%)

Q2 2020 In Review: Real Estate

Real Estate Performance

- NFI ODCE was down 155 Gross and 174 bps Net for the quarter, while the NCREIF NPI lost 99 bps and NAREIT Equity REIT Index gained 13.25% for Q1 2020.
- Income for the NFI-ODCE was 91 bps for the quarter, 11 bps down QoQ. Appreciation of assets was negative (246 bps for Q2 2020) due to the continued impact of COVID-19 and economic slowdown.
- Operating property rent diversification at the end of Q2 2020 was Apartment (25.3%), Industrial (16.6%), Office (38.3%), Retail (17.2%), Other (2.5%).
- For Q2, rent collection rates across property types was 86.1% value-weighted and 87.3% equal –weighted. In the U.S., retail sector appreciation was -3.2% for the first quarter of 2020 and hotel sector appreciation was -4.75%. More write-downs are expected in the second quarter of 2020 as retail and hotel sectors experience tenant defaults and historically low occupancy.
- Specifically to COVID-19, sectors such as multi-family and industrials are viewed as defensive as people stay home. These sectors also benefited from continued growth of e-commerce.

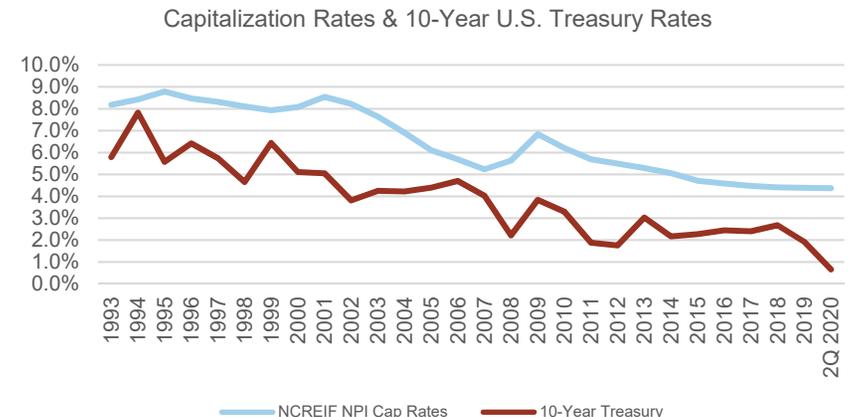

NCREIF Fund Index (NFI) Open-End Diversified Core (ODCE) Real Estate Performance

The NFI-ODCE (Open-end Diversified Core Equity) is defined by NCREIF as a fund-level cap-weighted, gross of fee, time-weighted return index with an inception date of December 31, 1977.

Real Estate Capitalization Rates* vs. Treasuries

- Equal weighted cap rates edged up slightly for the quarter from 4.7 to 4.8%, with the value weighted cap rate rising from 4.31% to 4.37% and driving Q2 2020 returns down QoQ.
- The 10-year Treasury rate continued its downward trajectory, albeit nowhere near the extent experienced in Q1 2020. T-bills ended Q2 2020 T 66 bps (-5.7% QoQ) and are down 65.6% YTD.

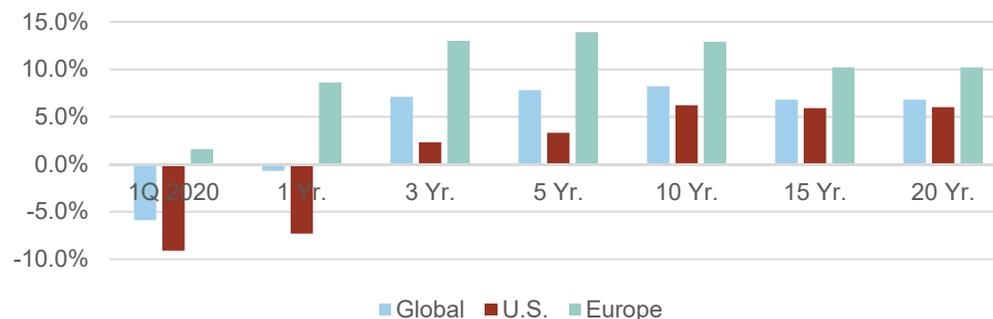

*A cap rate is the potential rate of return on a real estate investment. Assuming no change in net operating income, real estate valuations rise when cap rates fall. Comparing cap rates to the 10-year U.S. Treasury provides investors with an estimated spread for expected returns from real estate (higher risk) vs. fixed rate bond (lower risk) investments. Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

ALLOCATION - TARGET-DATE RETIREMENT INCOME																
<i>For Prudential Day One, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative as the target-date approaches and for ten years after the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.</i>																
<i>For Retirement Goal, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative as the target-date approaches and for five years after the target-date by lessening the equity exposure and increasing the exposure in fixed income type investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Disclosures, Footnotes and Definitions

The performance quoted represents past performance. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month end, please call 1-877-778-2100 or visit our website at www.prudential.com. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Disclosures

2. With the exception of Prudential Day One IncomeFlex Target 2065 Fund, the Funds commenced operations on June 30, 2009, which is the date that (1) the Funds began operations in accordance with the allocations dictated by the Funds' Glidepath, and (2) PRIAC began calculating daily unit values for the Funds. With respect to the Day One IncomeFlex Target 2065 Fund, the Fund was opened to new investment on December 16, 2019 and commenced operations on January 3, 2020.

Although the Funds commenced operations on June 30, 2009, the Funds did not receive initial funding from investor plans until the applicable Funding Dates: for the Prudential Day One IncomeFlex Target 2015 Fund: Dec. 10, 2010; for the Prudential Day One IncomeFlex Target 2010 Fund, Prudential Day One IncomeFlex Target 2035 Fund, Prudential Day One IncomeFlex Target 2040 Fund, Prudential Day One IncomeFlex Target 2045 Fund and the Prudential Day One IncomeFlex Target 2050 Fund: Dec. 21, 2010; for the Prudential Day One IncomeFlex Target 2020 Fund, Prudential Day One IncomeFlex Target 2025 Fund, and Prudential Day One IncomeFlex Target 2030 Fund: Jul. 19, 2010; for the Prudential Day One IncomeFlex Target 2060 Fund: Jan. 7, 2011; Prudential Day One IncomeFlex Target 2055 Fund: Jan. 11, 2011; Prudential Day One IncomeFlex Target Balance Fund: Sept. 22, 2009; and for the Prudential Day One IncomeFlex Target 2065 Fund: Jan 3, 2020. Prior to the applicable Funding Date, PRIAC calculated daily unit values based on the performance of the Underlying Funds in the fund-of-funds structure, weighted in accordance with the asset allocation of each Underlying Fund as specified by the Fund's Glidepath.

The current rebalancing frequency is a combination of monthly and tolerance-based rebalancing ("Monthly/Tolerance Based Rebalancing"). At every month end, each Fund will automatically rebalance to its target allocations (as then in effect) with respect to the underlying funds in which the Fund is invested (the "Underlying Funds," or each an "Underlying Fund"). In addition, each Fund will be evaluated daily with respect to its target allocations to the Underlying Funds. If market movements cause any Underlying Fund to deviate more than 5% relative to the target allocation to such Underlying Fund, there will be an automatic rebalancing of that Underlying Fund and any such other Underlying Funds as may be necessary to return all Underlying Funds to their respective target allocations as then in effect.

The performance track record reflects annual ratcheting along the Fund's Glidepath as well as daily rebalancing prior to January 2, 2015 and Monthly / Tolerance Based Rebalancing effective January 2, 2015. The performance track record for each Fund also reflects the applicable management fee listed above and the other expenses of the Fund actually incurred (which vary from year to year). Unlike the results shown in the performance record beginning with a Fund's Funding Date, performance prior to the Funding Date does not represent actual investment by the Fund in the Underlying Funds. If the Fund had actually invested in the Underlying Fund prior to the applicable Funding Date, it is possible that the performance of the Underlying Funds could have been different and the expenses of the Fund could have been different, each of which could have affected performance of the Fund.

Please note that the performance information reflects changes made to the Underlying Funds as of the date the Funds made the change. The following changes are reflected in the performance track record of each Fund (as applicable): • On September 22, 2010, the QMA Small Cap Blend Enhanced Index Fund sleeve was replaced with the Jennison Small Cap Core Equity Fund. • On December 7, 2011, the Bache Commodities Total Return Fund sleeve was replaced with the Jefferies Commodity Strategies Fund. Subsequently on April 16, 2012, the Jefferies Commodity Strategies Fund changed its name to the CoreCommodity Strategies Fund. • On January 4, 2016, the Prudential Total Return Bond Fund was added as a new Underlying Fund. • On March 29, 2018 QMA replaced CoreCommodity Management, LLC as the investment manager of the corresponding Underlying Fund which was renamed as QMA Commodity Strategy Fund.

All investing involves risk and there is no guarantee the Fund's objective will be achieved. An investment in a fund of funds is subject to the risks of the investments of each underlying fund, which include: With respect to investment in equities, stock prices are more volatile than bond prices over the long term, and the value of such investment will fluctuate with changes in market conditions. Small- and mid-cap investments may be more volatile than large-cap investments, and investments in non-U.S. markets may be more volatile than domestic investments due to currency fluctuation and political uncertainty. Investments in emerging markets are subject to greater volatility and price declines. Fixed-income investments may fluctuate based on interest rate changes and are subject to the risk that the company may not be able to make timely payments of principal and interest.

Some mutual funds and bank collective trusts, or their affiliates, compensate Prudential for selling their shares and servicing your retirement plan, as detailed in the Fact Sheet for that investment option. For other investment options, the charges reflected in the Expense Ratio are typically deducted by Prudential in return for investment and record-keeping services, and product distribution. For some plans, the charges also enable Prudential to satisfy the plan's request for allowances to defray plan expenses. Your retirement plan may not include investment options with lower fee structures or lower cost share classes in order to compensate Prudential, in the aggregate, for servicing your retirement plan.

Pricing for the plan sometimes includes contract charges. If included, the contract charges would reduce the performance shown. Contract charges are disclosed to the plan. Regarding plan participants, the expense ratio shown in their statements and in the performance shown on their statements will reflect any contract charges imposed. The management fees, fund fees and contract charges compensate Prudential Retirement for the distribution and servicing associated with the plan. Other plan investment options may generate more or less revenue for Prudential Retirement than the fees associated with the fund the plan selects. If the aggregate revenue from the plan exceeds Prudential Retirement's associated costs, Prudential Retirement earns a profit. Otherwise, Prudential Retirement incurs a loss. Other plans investing in the Fund may have lower fees, but these are not available to the plan in order to compensate Prudential Retirement for distribution and plan servicing.

In providing this information Prudential Retirement is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity. Prudential Retirement may benefit from advisory and other fees paid to it or its affiliates for managing, selling, or settling of the Prudential mutual funds and other investment products or securities offered by Prudential Retirement or its affiliates. Investment vehicles sponsored or managed by a Prudential Retirement affiliate generate more revenue for the Prudential enterprise than non-proprietary investment vehicles. Prudential Retirement's sales personnel generally receive greater compensation if plan assets are invested in proprietary investment vehicles. Prudential Retirement may benefit directly from the difference between investment earnings of Prudential Retirement's stable value funds and the amount credited to deposits in those funds. Prudential Retirement may also benefit from broker-dealer or other entities' co-sponsorship of Prudential conferences.

Unregistered insurance company separate accounts and collective investment trusts are investment vehicles available only to qualified retirement plans, such as 401(k) plans and government plans, and their participants. Unlike mutual funds and registered separate accounts, unregistered insurance company separate accounts and collective investment trusts are exempt from Securities and Exchange Commission registration under both the Securities Act of 1933 and the Investment Company Act of 1940, but are subject to oversight by state banking or insurance regulators, as applicable. Therefore, investors are generally not entitled to the protections of the federal securities laws. Also, unlike mutual funds and registered separate accounts, unregistered insurance company separate accounts and collective investment trusts are not offered by prospectus.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses before investing. The prospectus and (if available) summary prospectus contain complete information about the investment options available through your plan. Please call 877-778-2100 for a free prospectus and (if available) a summary prospectus containing this and other information about our funds. You should read the prospectus and summary prospectus (if available) carefully before investing. For variable insurance products, please read and consider carefully both the contract and fund prospectuses, if applicable, carefully before investing. It is possible to lose money by investing in securities.

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

At times Prudential Retirement solicits and/or receives financial support for certain of its conferences from investment advisory firms. Please contact your Prudential Retirement representative for more information.

Explanation of Performance Information - The tables provide fund performance information, and other relevant performance and supplementary information concerning Institutional Sub-Advised, Institutional Select and Proprietary Funds if applicable. For Institutional Sub-Advised and Institutional Select Funds, the PRIAC Separate Accounts hold the investment securities. Prudential Retirement Insurance and Annuity Company (PRIAC) assumes no responsibility for monitoring performance of the investment manager of any Institutional Select Fund.

Investing in securities involves risk, including the possible loss of principal. Unforeseen market conditions have the potential to maximize losses. Investors are urged to carefully consider their personal risk tolerance, retirement time horizon, and willingness to weather severe market downturns before making investment decisions.

Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Definitions

60% Russell 1000 Value Index/40% Bloomberg Barclays U.S. Aggregate Bond Index - An unmanaged, weighted average composite consisting of the Russell 1000 Value Index (60%) and the Bloomberg Barclays Aggregate Bond Index (40%).

Alpha - A measure of performance on a risk-adjusted basis. Alpha, often considered the active return on an investment, gauges the performance of an investment against a market index used as a benchmark, since they are often considered to represent the market's movement as a whole. The excess returns of a fund relative to the return of a benchmark index is the fund's alpha.

Bloomberg Barclays Agency Index - The index measures the performance of native currency agency debentures from issuers, callable and non-callable agency securities that are publicly issued by U.S. government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. government. It is a subcomponent of the Government-Related Index and the U.S. Government Index as well as a component of the U.S. Aggregate Index and the U.S. Universal Index.

Bloomberg Barclays Asset-Backed Securities Index - The Bloomberg Barclays U.S. Asset Backed Securities (ABS) Index measures the performance of ABS with the following collateral types: credit and charge card, auto and utility loans. All securities have an average life of at least one year.

Bloomberg Barclays Intermediate Aggregate Bond Index - The index measures the performance of investment grade, U.S. dollar-denominated, fixed-rate taxable securities with maturities of 1-10 years, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMBS.

Bloomberg Barclays Treasury Bond Index - The index measures the performance of public obligations of the U.S. Treasury, including securities roll up to the U.S. Aggregate, U.S. Universal, and Global Aggregate Indices.

Bloomberg Barclays U.S. Aggregate Bond Index - Measures the performance of investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-through's), ABS, and CMBS. It rolls up into other Bloomberg Barclays flagship indices, such as the multi-currency Global Aggregate Index and the U.S. Universal Index, which includes high yield and emerging markets debt.

Bloomberg Barclays U.S. Corporate High-Yield Index - Measures the performance of USD-denominated, non-investment grade, fixed-rate, taxable corporate bonds, including corporate bonds, fixed-rate bullet, puttable, and callable bonds, SEC Rule 144A securities, Original issue zeros, Pay-in-kind (PIK) bonds, Fixed-rate and fixed-to-floating capital securities.

Bloomberg Barclays U.S. Credit Index - Measures the performance of the US Corporate and a non-corporate component that includes foreign agencies, sovereigns, supnationals and local authorities. It is a subset of the US Government/Credit Index and the US Aggregate Index.

Bloomberg Barclays U.S. Mortgage Backed Securities Index - Measures the performance of the agency mortgage-backed pass-through securities (both fixed-rate and hybrid ARM) issued by Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index - Measures the performance of rules-based, market value-weighted inflation-protected securities issued by the U.S. Treasury. It is a subset of the Global Inflation-Linked Index (Series-L).

Bloomberg Barclays US Treasury Inflation Notes TR Index Value - The Index measures the performance of the U.S. treasury inflation-linked bond market. Securities must be rated investment grade as defined by the Index methodology. The principal and the interest of all constituent bonds must be inflation-linked and denominated in U.S. Dollars. Nominal U.S. Treasury bonds, floating rate bonds and STRIPS are excluded.

Category Median - Prudential Retirement constructs Asset Class Categories using MPI Stylus, a product of Markov Processes International LLC, and data provided by Morningstar™, Inc. Categories are constructed by using the appropriate Morningstar™, Inc. category. Category medians are then calculated using MPI Stylus and therefore may differ from those provided directly by Morningstar™, Inc.

Category Returns: Trailing Period Return Charts - In order to measure a fund's performance relative to a style specific benchmark and peer group or universe, funds and benchmarks are plotted relative to where they would rank within a given fund category. For example, the top line of the bar indicates the top 5th percentile return of the category. The 25th percentile return of the category is indicated by the second line. The median or 50th percentile return of the category is indicated by the third line. The 75th percentile return of the category is indicated by the fourth line. The bottom line of the bar indicates the 95th percentile return of the category.

CRSP U.S. Mid Cap Index - The CRSP U.S. Mid Cap Index targets inclusion of the U.S. companies that fall between the 70-85 percent of investable market capitalization. The index includes securities traded on NYSE, NYSE American, NYSE ARCA, NASDAQ, Bats Global Markets, and the Investors Exchange.

DDA Rank - The DDA Rank represents the quartile ranking assigned to the fund in the latest Due Diligence Advisor Program Report. Each separate account is assessed on the basis of nominal and risk adjusted returns, and downside and relative risk (versus an appropriate benchmark). These metrics are weighted based on 1-, 3- and 5-year results, with greatest emphasis placed on long term timeframes. Due Diligence Quartile Ranks shown are based on the last available Due Diligence Analysis, among the following peer group universe totals.

FTSE NAREIT Equity REITs Index - The FTSE NAREIT US Real Estate Index Series is designed to present investors with a comprehensive family of REIT performance indexes that spans the commercial real estate space across the US economy. The index series provides investors with exposure to all investment and property sectors. In addition, the more narrowly focused property sector and sub-sector indexes provide the facility to concentrate commercial real estate exposure in more selected markets. The FTSE NAREIT Equity REITs index contains all Equity REITs not designated as Timber REITs or Infrastructure REITs.

Gross Expense Ratio - The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges.

Indexes - Investors cannot invest directly in an index.

Lifetime Balanced Primary Benchmark - Each Lifetime Fund's composite benchmark reflects the weighted average of the Fund's stock/international stock/bond allocation, as represented by the Russell 3000 Index, the MSCI EAFE Index and the Bloomberg Barclays US Aggregate Bond Index, respectively.

Lifetime Conservative Growth Primary Benchmark - These indices are composite benchmarks that reflect the weighted average of the benchmarks for the underlying funds in which each specific Lifetime Fund invests.

Percentile Rank - Prudential Retirement constructs Asset Class Categories using MPI Stylus, a product of Markov Processes International LLC, and data provided by Morningstar™, Inc. Categories are constructed by using the appropriate Morningstar™, Inc. category. Percentile Ranks are then calculated using MPI Stylus and therefore may differ from those provided directly by Morningstar™, Inc.

Pru Day One IncomeFlex Target Balanced Benchmark - The custom benchmark reflects the normal weighted average of the respective Day One Fund's stock/non-traditional assets/bond/cash allocation, as represented by the S&P 1500 Composite Index, the Russell Developed ex North America Large Cap Index, the MSCI Emerging Markets Net Dividend Index, the Bloomberg Commodities Index, the PRREF Composite Index, the Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), the Bloomberg Barclays US Aggregate Bond Index and the Citigroup Three Month T-Bill. Effective January 1, 2013, the International asset class is represented in the mandate benchmark by the Russell Developed ex North America Large Cap Index, replacing the MSCI EAFE Net Dividend Index. Because the asset allocation of each Fund changes over time, the custom benchmark allocations also change over time. Effective close of business December 31, 2018, Russell discontinued the Russell Developed Ex-North America Large Cap Net Index. Therefore, also effective on December 31, 2018, the FTSE Developed Markets Ex-North America Index (FTSE Index) replaced the Russell Developed Ex-North America Large Cap Net Index as the primary performance benchmark for the Day One Funds' underlying PGIM QMA International Developed Markets Index Fund and a component of the custom benchmark with respect to each Prudential Day One Fund. The FTSE Index performance will be reflected in the performance of the Day One Funds' custom benchmark index on a go-forward basis only; the custom benchmark's performance history will not be re-stated.

Risk - Also known as Standard deviation, Risk is a statistical measure of the degree of variability, or dispersion, of a portfolio's return around its average return over a specified time period. Investors can examine historical standard deviation in conjunction with historical returns in order to decide whether a portfolio's volatility would have been acceptable given the returns it produced. A higher standard deviation indicates a wider dispersion of past returns and thus greater risk. Standard deviation does not indicate how a portfolio actually performed, but merely the volatility of its returns over time around their mean.

S&P 500-Materials and Processing - The index measures the performance of all those companies held in the S&P 500 index that are classified as a materials(sector) company using the Global Industry Classification Standard(GICS) system.

S&P 500-Utilities - The S&P 500® Utilities Index comprises those companies included in the S&P 500 that are classified as members of the GICS® utilities sector.

S&P500-Consumer Staples - The S&P 500® Consumer Staples Index comprises those companies included in the S&P 500 that are classified as members of the GICS® consumer staples sector.

Sharpe Ratio - The Sharpe ratio was developed by Nobel laureate William F. Sharpe and is used to help investors understand the return of an investment compared to its risk. The ratio is the average return earned in excess of the risk-free rate per unit of volatility or total risk. Subtracting the risk-free rate from the mean return allows an investor to better isolate the profits associated with risk-taking activities. Generally, the greater the value of the Sharpe ratio, the more attractive the risk-adjusted return.

Vanguard Spliced Small Cap Index - This index is composed of the Russell 2000 Index through May 16, 2003, MSCI US Small Cap 1750 Index through January 30, 2013 and the CRSP US Small Cap Index, thereafter.

Economic Review

Source: Robert DeLucia, Consulting Economist, Prudential Retirement

- The estimated annualized decline of 33% in real GDP was the largest contraction for any quarter since the 1930s. This compares with a decline of 8.5% in the fourth quarter of 2008, and the post-World War II record of 10% in the first quarter of 1958. The contraction in aggregate spending, output, and employment can be attributed to the COVID-19 pandemic, which prompted a lockdown of virtually all economies worldwide. The COVID-19 recession was the deepest but also the shortest recession since the Civil War, encompassing only two months.
- U.S. corporate earnings fell at an annual rate of 30% in the quarter, the worst quarterly decline since 2008. Nearly 40% of the companies in the S&P 500 have suspended quarterly guidance for investors. The capacity of analysts to forecast company revenues, selling prices, and operating costs is extremely limited.
- The recent unfavorable trends pertaining to new cases and accelerating transmission are worrisome, and in the worst case could undermine the economic recovery. At the end of June, daily infections had surged to more than 52,000 while hospitalizations rose sharply. The escalation of infections since mid-June has been concentrated in numerous states in the southern and western U.S.
- The offsetting good news has been the concrete progress in the development of an effective vaccine at an unprecedented pace and government data in May and June have been generally favorable. Although there is strong evidence that the recession ended in April, the speed of the recovery remains unclear. Monthly reports on retail sales, housing sales, factory orders, and employment for May and June have been encouraging, generally beating consensus economist estimates. These signs of strength can be attributed to the phased reopening of the economy beginning in early May.
- There can be little doubt regarding the resolve of the Federal Reserve. Additional fiscal support from Congress and the White House is also likely but far from certain. Governments outside the U.S. have responded to the crisis with breathtaking speed. The amounts of fiscal stimulus authorized by policymakers in Germany and Japan are triple those provided in response to the 2008 financial crisis. Monetary stimulus in Europe, China, and Japan has also been aggressive.

Financial Market Returns

This chart is for illustration purposes only and is not meant to represent the performance of any investment. Investors cannot invest directly in an index.

- Following one of the worst quarters in decades, financial markets rallied strongly in the second quarter, with the largest 50-day advance in global equity market history. U.S. equities led the way, benefiting from unprecedented monetary and fiscal stimulus and expectations for restarting the economy.
- The S&P 500 Index delivered its largest percentage gain since the fourth quarter of 1998, supported by record stimulus, favorable news regarding a vaccine and much improved economic data in May and June.
- Investment grade bonds, as measured by the Bloomberg Barclays U.S. Aggregate Bond Index, gained 2.9% for the quarter, supported by strong returns from corporate bonds and the Federal Reserve's efforts to stabilize the credit markets. The Bloomberg Barclays Corporate High Yield Index was the best performing segment of the domestic fixed-income market, advancing nearly 10.2% for the quarter.

Domestic Equity Style Returns

This chart is for illustration purposes only and is not meant to represent the performance of any investment. Investors cannot invest directly in an index.

- Coming off an historic drawdown in the first quarter, domestic equities staged a remarkable recovery with all styles and market caps posting double digit returns, despite rising COVID-19 infections in June. Relative performance of growth over value has accelerated since the pandemic, driven by the top performing Information Technology sector.

- Small-cap stocks outperformed mid- and large-cap stocks for the quarter, benefitting from improved economic data and an optimistic outlook for a national recovery. Small-Cap Growth was the best performing segment as higher volatility (beta) stocks led the market higher.

- All sectors of the S&P 500 Index posted positive returns for the second quarter. Consumer Discretionary had its best quarterly gain on record and was the best performing sector benefiting from the economy reopening and increased retail spending. Specific leadership within the large-cap indices continued to be driven by the Information Technology sector, with Microsoft, Facebook, Amazon and Apple as top contributors for the quarter. Five mega-cap technology stocks which comprise nearly 25% of the S&P 500 Index and nearly 50% of NASDAQ were responsible for a staggering one-third of total index gains in the quarter.

- Energy rebounded as the price of crude oil rallied to \$40 per barrel after falling below \$0 for the first time ever in late April. Demand for oil increased as major economies eased lockdown restrictions and production cuts from OPEC.

- Defensive sectors, such as Utilities and Consumer Staples, were among the weakest performers in the quarter. This comes as a reversal from the first quarter as investors gravitated towards economically sensitive areas of the market amid improvement in risk sentiment until mid-June.

- International equities mirrored the rally in U.S. equities with the MSCI EAFE Index advancing double digits on positive news of flattening curves, potential vaccines and reopening economies. Emerging market equities generated their strongest quarterly return in over a decade helped by a weaker U.S. dollar.
- Japanese equities were among the top relative performers supported by an improved global environment and additional stimulus measures by the Bank of Japan. Japan continues to be on a different trajectory relative to other developed nations with a slower spread of the coronavirus.
- European equities performed well as lockdown restrictions were eased. News regarding additional support from the European Union for a post-COVID-19 recovery fund also contributed. United Kingdom equities rebounded from last quarter's lows as economic indicators suggested the downturn is past its worst point and the Bank of England (BoE) expanded its quantitative easing program.

- All major fixed income segments posted gains for the quarter with the Bloomberg Barclays U.S. Credit Index the best performing component of the Aggregate Index. Investment grade corporate issues recovered as spreads tightened dramatically from their March highs while the Federal Reserve (Fed) expanded its stimulus program by continuing to buy individual corporate credit through its Secondary Market Corporate Credit Facility.
- The Bloomberg Barclays Corporate High Yield Index had its best quarterly performance since 2009 and outpaced all other sectors due to investors' increased appetite for risk assets and yield, driving prices higher. The Fed expanded its corporate credit facilities to allow for the purchase of High Yield ETFs and recent fallen angels, providing liquidity to help stabilize the market and setting off an incredible pace of new high yield issues.
- The Bloomberg Barclays Treasury Bond Index registered a positive return for the quarter, but was the weakest performing component of the domestic fixed income market as investors rotated out of higher quality issues and into riskier credit assets.

U.S. Treasury Yield Curve

This chart is for illustration purposes only and is not meant to represent the performance of any investment. Investors cannot invest directly in an index.

- The Federal Reserve responded to the coronavirus crisis with unprecedented speed and force, successfully restoring the functioning of the financial system, assuring credit availability for businesses and households. Fed Chairman Jerome Powell has made it clear that policy will continue to support the economy and financial system with whatever tools necessary.
- After plunging during the first quarter, Treasury yields rose slightly on the long and short end of the yield curve as investor demand for safe-haven assets diminished. The 30-year Treasury yield rose 6 basis points to 1.41% while the three-month rose from near zero to 0.16%.
- The 10-year Treasury yield remained in a narrow range and finished four basis point lower to end the second quarter at 0.66%. It sold off in early June following a stronger-than-expected jobs report, before reversing later in the month as COVID-19 infections began to spike.

Economic & Market Outlook

- Following its record decline in the second quarter, real GDP should rebound strongly in the third quarter and somewhat less so in the fourth quarter. The sharp pullback in household spending has resulted in considerable deferred demand, which could be unleashed in coming months should employment, incomes, and confidence improve. Real GDP could decline by 5% for all of 2020, followed by rebounds of 4% to 5% in both 2021 and 2022. The absolute level of real GDP is not likely to return to its 2019 all-time peak of \$19.22 trillion until the second half of 2022.
- The pace of COVID-19 medical research and development is unprecedented. There are numerous vaccines in advanced clinical trials, and one or more could be approved by year end, with inoculations on a mass scale beginning early next year. Availability of one or more coronavirus therapeutics would increase private sector confidence and result in a faster pace of economic recovery. Until the arrival of inventive medications, the U.S. economy will likely continue to operate well below full employment, with only moderate growth in spending and output.
- While the rate of economic growth is highly uncertain, a steadily expanding economy should be accompanied by a rising trend in company earnings and dividends. Corporate earnings could decline by 30% for all of 2020, but should rebound in both the third quarter and fourth quarter, with 25% full-year earnings growth in 2021 and another 20% in 2022.
- Despite these positives, the sudden and severe reversal in COVID-19 trends since the middle of June is transforming the outlook for economic growth. With a continuation of the current surge in infections in coming weeks and months, data for retail sales, industrial production, factory orders, and employment could weaken once again. The outlook for the economy has suddenly darkened, with increased risk of a major slowdown or possible double-dip recession later this year, as surging infections trigger a pullback in consumer spending and business expansion plans.
- The equity market could remain under pressure until current adverse public health trends are reversed, evident in a sustained decline in the numbers of new cases and hospitalizations. The implication is that the equity market may be in a prolonged consolidation phase, which would become evident in a sideways pattern for stock prices, or possibly an interim correction of 5% to 10%. Defensive assets are likely to continue to outperform risk assets, and growth stocks should continue to outperform value stocks. Looking beyond the daunting public health challenges in the short term, the outlook for common stock investing appears favorable while the outlook for the fixed-income market is unfavorable.

Allocation - Target-Date Retirement Income (With Income Guarantee)														
Keep in mind that application of asset allocation and diversification concepts does not assure a profit or protect against loss in a declining market. It is possible to lose money by investing in securities.														
<i>For Prudential Day One IncomeFlex Target, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative until the date which is ten years prior to the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.</i>

Investment Options Review

Prudential Retirement constructs Asset Class Categories using MPI Stylus, a product of Markov Processes International LLC, and data provided by Morningstar™, Inc. Prudential Retirement, Morningstar and Markov Processes International are not affiliated entities.

Within MPI Stylus, Asset Class Categories are constructed based on the category provided in the Morningstar open-end universe. Total Return Performance of each of the funds on our platform is then compared against the appropriate Asset Class Category to generate the percentile ranking within each time period. All total return performance is net of all management and investment expenses only. Unless specifically requested by a plan sponsor, contract charges are not included. If included, contract charges would lower the performance and therefore change the fund's percentile rankings. Fund percentile rankings may differ from those provided directly by Morningstar™, Inc. Funds are ranked by total return performance against the Asset Class Category that is identified at the bottom of each section with the words Category Median following the Asset Class Category name. For more information on how many funds are in each Asset Class Category please refer to the Number of Funds In Category section below.

Section II: Fund Performance

The Lancaster County, Nebraska Employees Retirement Plan

Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

ALLOCATION - TARGET-DATE RETIREMENT INCOME																
<i>For Prudential Day One, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative as the target-date approaches and for ten years after the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.</i>																
<i>For Retirement Goal, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative as the target-date approaches and for five years after the target-date by lessening the equity exposure and increasing the exposure in fixed income type investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.</i>

ALLOCATION - TARGET-DATE 2025																
<i>For Prudential Day One, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative as the target-date approaches and for ten years after the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

ALLOCATION - TARGET-DATE 2040 (WITH INCOME GUARANTEE)																
<i>For Prudential Day One IncomeFlex Target, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative until the date which is ten years prior to the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.</i>

The Lancaster County, Nebraska Employees Retirement Plan

Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

ALLOCATION - TARGET-DATE 2060+ (WITH INCOME GUARANTEE)																
<i>For Prudential Day One IncomeFlex Target, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative until the date which is ten years prior to the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.</i>

Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

Fund Performance as of June 30, 2020

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

¹ **Fund Performance.** The performance table provides fund performance information, and other relevant performance and supplementary information concerning the Fund and its manager. Three types of information are provided. "Fund" Performance represents the actual performance of the Fund for all periods since the inception date of the Fund. "Manager's Composite" represents the composite return of multiple portfolios advised by the current Manager having a similar investment style as this Fund. "Blended" represents a combination of the Actual Fund performance and the current Manager Composite performance. Actual Fund performance is used for periods after the Fund was managed by the current Manager. For periods before the current Manager's assumption of Fund management, the Manager Composite return is used. The inception date associated with this line is the inception date of the Manager Composite. "Since Inception" returns are only provided when the inception date is less than 10 years ago.

INTERNATIONAL - EMERGING MARKET																
<i>Investing in emerging markets is generally riskier than investing in foreign securities. Emerging market countries may have unstable governments and/or economies that are subject to sudden change. These changes may be magnified by the countries' emergent financial markets, resulting in significant volatility to investments in these countries. These countries may also lack the legal, business and social framework to support securities markets.</i>

ALTERNATIVE - COMMODITIES BROAD BASKET																
<i>All investing involves risk. Alternative investments, such as commodities, derivatives, multicurrency, market neutral, and other strategies involve unique risks and may cause these investments to react differently to market conditions than traditional investments. These alternative investments may be speculative and more volatile than investments in more traditional equity and debt securities.</i>																
<i>Short selling carries the additional risk that the portfolio will incur a loss by subsequently buying a security at a higher price than the price at which it sold the security short. The amount of such loss from short selling is theoretically unlimited.</i>

With respect to the Day One IncomeFlex Target 2065 Fund, the Fund was opened to new investment on December 16, 2019 and commenced operations on January 3, 2020.

Although the Funds commenced operations on June 30, 2009, the Funds did not receive initial funding from investor plans until the applicable Funding Dates: for the Prudential Day One IncomeFlex Target 2015 Fund: Dec. 10, 2010; for the Prudential Day One IncomeFlex Target 2010 Fund, Prudential Day One IncomeFlex Target 2035 Fund, Prudential Day One IncomeFlex Target 2040 Fund, Prudential Day One IncomeFlex Target 2045 Fund and the Prudential Day One IncomeFlex Target 2050 Fund: Dec. 21, 2010; for the Prudential Day One IncomeFlex Target 2020 Fund, Prudential Day One IncomeFlex Target 2025 Fund, and Prudential Day One IncomeFlex Target 2030 Fund: Jul. 19, 2010; for the Prudential Day One IncomeFlex Target 2060 Fund: Jan. 7, 2011; Prudential Day One IncomeFlex Target 2055 Fund: Jan. 11, 2011; Prudential Day One IncomeFlex Target Balance Fund: Sept. 22, 2009; and for the Prudential Day One IncomeFlex Target 2065 Fund: Jan 3, 2020. Prior to the applicable Funding Date, PRIAC calculated daily unit values based on the performance of the Underlying Funds in the fund-of-funds structure, weighted in accordance with the asset allocation of each Underlying Fund as specified by the Fund's Glidepath.

The current rebalancing frequency is a combination of monthly and tolerance-based rebalancing ("Monthly/Tolerance Based Rebalancing"). At every month end, each Fund will automatically rebalance to its target allocations (as then in effect) with respect to the underlying funds in which the Fund is invested (the "Underlying Funds," or each an "Underlying Fund"). In addition, each Fund will be evaluated daily with respect to its target allocations to the Underlying Funds. If market movements cause any Underlying Fund to deviate more than 5% relative to the target allocation to such Underlying Fund, there will be an automatic rebalancing of that Underlying Fund and any such other Underlying Funds as may be necessary to return all Underlying Funds to their respective target allocations as then in effect.

The performance track record reflects annual ratcheting along the Fund's Glidepath as well as daily rebalancing prior to January 2, 2015 and Monthly / Tolerance Based Rebalancing effective January 2, 2015. The performance track record for each Fund also reflects the applicable management fee listed above and the other expenses of the Fund actually incurred (which vary from year to year). Unlike the results shown in the performance record beginning with a Fund's Funding Date, performance prior to the Funding Date does not represent actual investment by the Fund in the Underlying Funds. If the Fund had actually invested in the Underlying Fund prior to the applicable Funding Date, it is possible that the performance of the Underlying Funds could have been different and the expenses of the Fund could have been different, each of which could have affected performance of the Fund.

Please note that the performance information reflects changes made to the Underlying Funds as of the date the Funds made the change. The following changes are reflected in the performance track record of each Fund (as applicable): • On September 22, 2010, the QMA Small Cap Blend Enhanced Index Fund sleeve was replaced with the Jennison Small Cap Core Equity Fund. • On December 7, 2011, the Bache Commodities Total Return Fund sleeve was replaced with the Jefferies Commodity Strategies Fund. Subsequently on April 16, 2012, the Jefferies Commodity Strategies Fund changed its name to the CoreCommodity Strategies Fund. • On January 4, 2016, the Prudential Total Return Bond Fund was added as a new Underlying Fund. • On March 29, 2018 QMA replaced CoreCommodity Management, LLC as the investment manager of the corresponding Underlying Fund which was renamed as QMA Commodity Strategy Fund.

3 Performance displayed for periods beginning earlier than the "Inception Date" is based on the historical returns of the oldest share class of the fund, adjusted to reflect the fees and expenses of this share class. "Since Inception" performance when shown is based on the actual performance of this share class.

4 For Manager of Managers Institutional Sub-Advised funds and Institutional Select Funds: Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements.

9 With the exception of the Day One 2060 and 2065 Funds, the Funds commenced operations on June 30, 2009, which is the date that (1) the Funds began operations in accordance with the allocations dictated by the Funds' Glidepath, and (2) PRIAC began calculating daily unit values for the Funds. With respect to the Day One 2060 Fund, the Fund commenced operations on May 31, 2013. With respect to the Day One 2065 Fund, the Fund was opened to new investment on December 16, 2019 and commenced operations on January 3, 2020.

Although most of the Funds commenced operations on June 30, 2009, (exceptions being the Day One 2060 and 2065 Funds), the Separate Accounts did not receive initial funding from investor plans until the applicable Funding Dates: for the Prudential Day One 2015 Fund: Dec. 16, 2011; for the Prudential Day One 2010 Fund: Feb. 15, 2013; for the Prudential Day One 2020 Fund, Prudential Day One 2025 Fund, Prudential Day One 2030 Fund, Prudential Day One 2040 Fund, and Prudential Day One Income Fund: Aug. 1, 2013; for the Prudential Day One 2060 Fund: Aug. 13, 2013; for the Prudential Day One 2050 Fund: Aug. 15, 2013; for the Prudential Day One 2045 Fund: Aug. 23, 2013; and for the Prudential Day One 2035 Fund and Prudential Day One 2055 Fund: Sept. 6, 2013; and for the Prudential Day One 2065 Fund: Jan 3, 2020. Our pricing for your plan sometimes includes contract charges. If included, the contract charges would reduce the performance shown within this report. Any contract charges are disclosed to you. Regarding your members, the expense ratio shown in their statements and in the performance shown on their statements will reflect any contract charges imposed. The management fees, fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with the fund you select. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

All investing involves risk and there is no guarantee the Fund's objective will be achieved. An investment in a fund of funds is subject to the risks of the investments of each underlying fund, which include: With respect to investment in equities, stock prices are more volatile than bond prices over the long term, and the value of such investment will fluctuate with changes in market conditions. Small- and mid-cap investments may be more volatile than large-cap investments, and investments in non-U.S. markets may be more volatile than domestic investments due to currency fluctuation and political uncertainty. Investments in emerging markets are subject to greater volatility and price declines. Fixed-income investments may fluctuate based on interest rate changes and are subject to the risk that the company may not be able to make timely payments of principal and interest.

Non Proprietary Retail Funds. A non-proprietary Retail Fund refers to a mutual fund offered by Prudential Retirement, other than Jennison Dryden funds (which are sponsored by affiliates of Prudential Retirement). These Retail Funds are registered with the Securities and Exchange Commission. The fund complex establishing the mutual funds charges investment fees and service fees. These fees, expressed as a percentage, represent the "expense ratio" for the fund's shares because they are deducted from the gross returns of the shares. The fund complex often agrees to pay Prudential Retirement sub-accounting fees in return for the services provided to the plans as well as distribution fees in return for the distribution of the fund's shares to the plans. While these fees do not add to the "expense ratio" for the fund's shares, they in effect represent the portion of the expense ratio that is paid to Prudential Retirement. These sub-accounting and distribution fees enable Prudential to pay for the recordkeeping and distribution costs associated with a plan. Fund complexes not paying such fees to Prudential Retirement (or fund complexes only willing to pay a lesser amount of such fees) are not part of the standard offering of funds by Prudential Retirement. Similarly, some share classes paying a lesser amount of such fees to Prudential Retirement are not part of the standard investment offering. In both cases, this is because Prudential Retirement requires such fees as compensation for the cost of plan recordkeeping and product distribution. Such funds are available on an exception basis, and may require that Prudential Retirement charge additional fees to the plan sponsor or the participant accounts. **Proprietary Retail Funds and Alliance Funds:** "Proprietary" Retail Funds refers to mutual funds sponsored by Prudential affiliates. Proprietary Retail Funds have either Jennison or Dryden as the sub-advisor to the fund. Proprietary Alliance Funds refers to Alliance Funds purchasing Jennison/Dryden mutual funds. Like other mutual fund complexes, Jennison/Dryden pays sub-accounting and distribution fees to Prudential Retirement. Unlike non-proprietary Retail Funds and Alliance Funds, affiliates of Prudential Retirement receive the portion of the expense ratio for such products that are not paid to Prudential Retirement in the form of sub-accounting and distribution fees.

Unregistered Insurance company separate accounts and collective investment trusts are investment vehicles available only to qualified retirement plans, such as 401(k) plans and government plans, and their participants. Unlike mutual funds and registered separate accounts, unregistered insurance company separate accounts and collective investment trusts are exempt from Securities and Exchange Commission registration under both the Securities Act of 1933 and the Investment Company Act of 1940, but are subject to oversight by state banking or insurance regulators, as applicable. Therefore, investors are generally not entitled to the protections of the federal securities laws. Also, unlike mutual funds and registered separate accounts, unregistered insurance company separate accounts and collective investment trusts are not offered by prospectus.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses before investing. The prospectus and (if available) summary prospectus contain complete information about the investment options available through your plan. Please call 877-778-2100 for a free prospectus and (if available) a summary prospectus containing this and other information about our funds. You should read the prospectus and summary prospectus (if available) carefully before investing. For variable insurance products, please read and consider carefully both the contract and fund prospectuses, if applicable, carefully before investing. It is possible to lose money by investing in securities.

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

Prudential Retirement's separate accounts are available under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT. PRIAC is a Prudential Financial company.

The Retirement Goal Funds are a family of seven multi-asset class, multi-manager investment portfolios offering a range of distinct risk/return characteristics. This family is based on the "life-cycle" approach to investing - that different bond/stock mixes are appropriate for individuals at different stages of their lives.

Funds offered by Prudential may be closed to new investors or new contributions at any time without prior notice.

At times Prudential Retirement solicits and/or receives financial support for certain of its conferences from investment advisory firms. Please contact your Prudential Retirement representative for more information.

Explanation of Performance Information - The tables provide fund performance information, and other relevant performance and supplementary information concerning Institutional Sub-Advised, Institutional Select and Proprietary Funds if applicable. For Institutional Sub-Advised and Institutional Select Funds, the PRIAC Separate Accounts hold the investment securities. Prudential Retirement Insurance and Annuity Company (PRIAC) assumes no responsibility for monitoring performance of the investment manager of any Institutional Select Fund.

Investing in securities involves risk, including the possible loss of principal. Unforeseen market conditions have the potential to maximize losses. Investors are urged to carefully consider their personal risk tolerance, retirement time horizon, and willingness to weather severe market downturns before making investment decisions.

Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Prudential Retirement is a full service provider of investment products and recordkeeping services to retirement plans. The recordkeeping services are "bundled" together with the investment products and services. Fees associated with investment products also pay for recordkeeping services and the costs of distributing our bundled product. Some contracts may have a charge to cover the costs of recordkeeping and distribution. Our distribution partners represent Prudential Retirement and are paid by Prudential Retirement. If a plan retains a consultant, the consultant represents the plan and its fiduciaries. Prudential Retirement may make expense allowances available to the plan to enable the plan to pay the consultant.

Prudential Retirement offers a full range of investment products and services to retirement plan fiduciaries and plan participants. The fees generated by the investment products depend on the type of investment product and whether the investment product is sponsored by Prudential Retirement.

25 These investments represent investments into a separate account. Returns, ratings, and rankings, if shown reflect the net expense ratio quoted. All returns are net of the management fees charged for the separate account and net of other operational expenses, and if requested for inclusion in the report may also contain record keeping charges as described in your most recent illustrative revenue disclosure.

The net expense ratios shown for each fund may reflect fund families' contractual waiver of a portion of its advisory fees and/or reimbursement of a portion of the fund's operating expenses. Please refer to the fund prospectus for the expiration of the current waiver. The fund family may also extend the waiver.

Data Point Terms

Alpha - A measure of performance on a risk-adjusted basis. Alpha, often considered the active return on an investment, gauges the performance of an investment against a market index used as a benchmark, since they are often considered to represent the market's movement as a whole. The excess returns of a fund relative to the return of a benchmark index is the fund's alpha.

DDA Rank - The DDA Rank represents the quartile ranking assigned to the fund in the latest Due Diligence Advisor Program Report. Each separate account is assessed on the basis of nominal and risk adjusted returns, and downside and relative risk (versus an appropriate benchmark). These metrics are weighted based on 1-, 3- and 5-year results, with greatest emphasis placed on long term timeframes. Due Diligence Quartile Ranks shown are based on the last available Due Diligence Analysis, among the following peer group universe totals.

Gross Expense Ratio - The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges.

Net Expense Ratio - The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers.

Risk - Also known as Standard deviation, Risk is a statistical measure of the degree of variability, or dispersion, of a portfolio's return around its average return over a specified time period. Investors can examine historical standard deviation in conjunction with historical returns in order to decide whether a portfolio's volatility would have been acceptable given the returns it produced. A higher standard deviation indicates a wider dispersion of past returns and thus greater risk. Standard deviation does not indicate how a portfolio actually performed, but merely the volatility of its returns over time around their mean.

Sharpe Ratio - The Sharpe ratio was developed by Nobel laureate William F. Sharpe and is used to help investors understand the return of an investment compared to its risk. The ratio is the average return earned in excess of the risk-free rate per unit of volatility or total risk. Subtracting the risk-free rate from the mean return allows an investor to better isolate the profits associated with risk-taking activities. Generally, the greater the value of the Sharpe ratio, the more attractive the risk-adjusted return.

Russell 1000 Index - Measures the performance of the large-cap segment of the US equity universe. It is a subset of the Russell 3000 Index and represents approximately 92% of the US market. It includes approximately 1,000 of the largest securities based on a combination of their market cap and current index membership. The index is constructed to provide a comprehensive and unbiased barometer for the large-cap segment and is completely reconstituted annually to ensure new and growing equities are reflected.

Russell 1000 Value Index - Measures the performance of the large-cap value segment of the US equity securities. It includes the Russell 1000 index companies with lower price-to-book ratios and lower expected growth values. It is market-capitalization weighted.

Russell 1000® Growth Index - Measures the performance of the large-cap growth segment of the US equity securities. It includes the Russell 1000 index companies with higher price-to-book ratios and higher forecasted growth values. It is market-capitalization weighted.

Russell 2000® Growth Index - Measures the performance of small-cap growth segment of the US equity universe. It includes those Russell 2000 companies with higher price/book ratios and higher predicted and forecasted growth values. It is market-capitalization weighted.

Russell 2000® Index - Measures the performance of the small-cap segment of the US equity universe. It is a subset of the Russell 3000 Index and it represents approximately 8% of the US market. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership.

Russell 2000® Value Index - Measures the performance of small-cap value segment of the US equity universe. It includes those Russell 2000 companies with lower price-to-book ratios and lower expected and historical growth values.

Russell Midcap Value Index - Measures the performance of the mid-cap value segment of the US equity universe. It includes Russell midcap index companies with lower price-to-book ratios and lower forecasted growth values. It is market-capitalization weighted.

Russell Midcap® Growth Index - Measures the performance of the midcap growth segment of the U.S. equity universe. It includes those Russell Midcap Index companies with higher price-to-book ratios and higher forecasted growth values.

S&P 1500 Index - The S&P Composite 1500® combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600® to cover approximately 90% of the U.S. market capitalization. It is designed for investors seeking to replicate the performance of the U.S. equity market or benchmark against a representative universe of tradable stocks.

S&P 500 Index - The S&P 500® is widely regarded as the best single gauge of large-cap U.S. equities. There is over USD 7.8 trillion benchmarked to the index, with index assets comprising approximately USD 2.2 trillion of this total. The index includes 500 leading companies and captures approximately 80% coverage of available market capitalization.

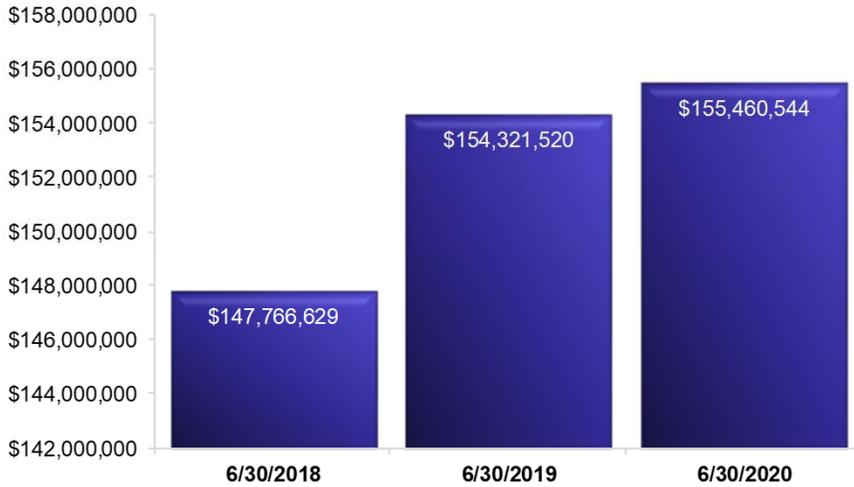

S&P Composite 1500® Index - The S&P Composite 1500® combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600® to cover approximately 90% of the U.S. market capitalization. It is designed for investors seeking to replicate the performance of the U.S. equity market or benchmark against a representative universe of tradable stocks.

S&P MidCap 400 Index - The S&P MidCap 400® provides investors with a benchmark for mid-sized companies. The index, which is distinct from the large-cap S&P 500®, measures the performance of mid-sized companies, reflecting the distinctive risk and return characteristics of this market segment.

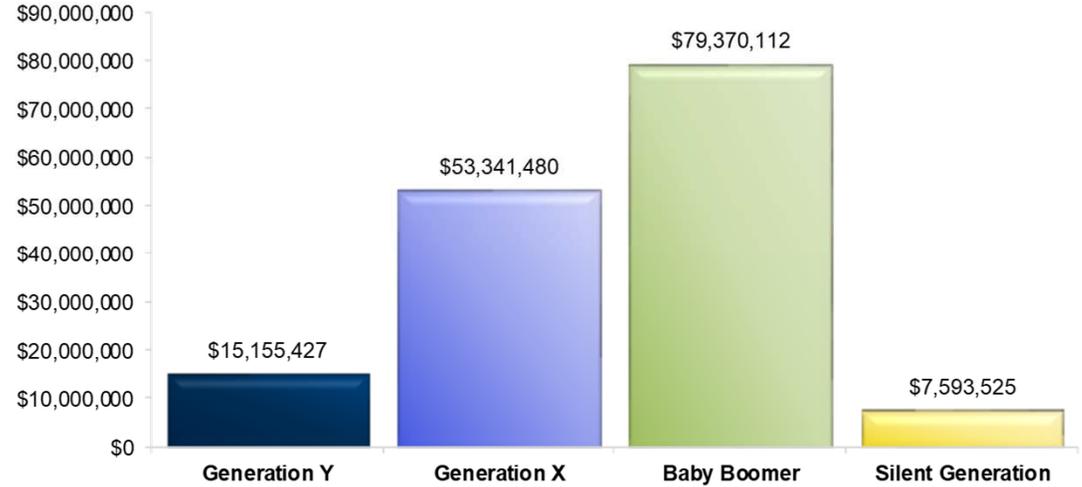

Vanguard Spliced Small Cap Index - This index is composed of the Russell 2000 Index through May 16, 2003, MSCI US Small Cap 1750 Index through January 30, 2013 and the CRSP US Small Cap Index, thereafter.

Average RIC Surplus	\$1,992
Average Income Replacement, RIC Participant	70%
Average Income Replacement, Non-RIC Participant	0%

Note - due to market volatility and COVID, the numbers might be lower than prior quarters.

Total Retirement Income Calculator Completions - Number of RIC completions for the given time period. If a single participant completed the RIC multiple times within the given time period, they would be counted multiple times.

Unique Completions: Total number of unique active/eligibles that completed the retirement income calculator during the reporting period

Contribution Rate Increases: Total number of active/eligibles that completed the retirement income calculator and increased their contribution rate.

Average Balance RIC Participant - For participants who have a balance greater than \$0 that have previously completed the RIC - The total balance of active participants divided by the total count of active participants

Average Balance Non-RIC Participant - For participants who have a balance greater than \$0 that have NOT previously completed the RIC - The total balance of active participants divided by the total count of active participants

Average Contribution Rate RIC Participant - For participants who have completed the RIC - The total of all contribution rates (%) for active participants who have completed the RIC divided by the number of active participants that have completed the RIC who have non-zero contribution rates.

Average Income Replacement, RIC Participant - Calculated by summing the income replacement percentages of all active, eligible & suspended participants who have completed the RIC divided by the total count of all those active, eligible & suspended participants that have completed the RIC. Individuals not enrolled in the plan are excluded from the calculation.

Average Income Replacement, Non- RIC Participant - Calculated by summing the income replacement percentages of all active, eligible & suspended participants who have not completed the RIC divided by the total count of all those active, eligible & suspended participants that have completed the RIC. Individuals not enrolled in the plan are excluded from the calculation.

Participant - An individual who has enrolled in the plan and has a non-zero account balance.

Termination - A withdrawal that is taken when the participant is active and terminating from employment or is already in a 'Terminated' status.

Installment Payment - An Installment distribution is a payment option that disburses funds over time (i.e. monthly, quarterly, yearly).

Required Minimum Distribution - Minimum amounts that a participant must withdraw annually upon reaching a certain age or retirement. This would exclude any beneficiary or QDRO accounts.

In-Service Withdrawal - A distribution that is taken while the participant is still active, before termination from employment.

Death Distribution - Distribution taken by a beneficiary. This could include required minimum distributions, installment payments, etc.

QDRO - Distribution taken by the recipient of a QDRO. This could include required minimum distributions, installment payments, etc.

Coronavirus-Related Withdrawal - A distribution that is requested by a participant in which they meet certain qualifications under the CARES Act. Note, the 59 ½ early withdrawal tax penalty does not apply.

Hardship Withdrawal - A distribution which is requested by a participant because of an immediate and heavy financial need that cannot be satisfied from other resources.

Gross Adjustment - The total of all adjustments made to an account or plan in absolute terms, regardless of whether or not the adjustments were positive or negative.

GoalMaker® Performance

PRUDENTIAL RETIREMENT. INTELLIGENT SOLUTIONS WORKING FOR YOU.

Second Quarter 2020

The calculated returns shown are the weighted average returns of the underlying funds for the GoalMaker portfolios based on model allocations prior to 06/30/2020. Returns are net of product expenses and fees and before any contract charges, with the exception of any fees the sponsor may have directed to be deducted from participant accounts. **Past performance does not guarantee future results.** The performance shown for the GoalMaker portfolios is for illustrative purposes only and does not reflect the actual experience of any individual participant in the program. This performance was calculated with the retroactive application of a model with the benefit of hindsight. **The performance shown 1) was rebalanced on a periodic basis as per your plan 2) assumes no changes to the asset allocation percentages or to the investment options for the relevant periods 3) assumes that an individual was enrolled in GoalMaker for the entire relevant time period and 4) assumes an initial investment but does not include the effect of periodic contributions or withdrawals.**

2. Performance displayed for periods beginning earlier than the "Inception Date" is based on the historical returns of the oldest share class of the fund, adjusted to reflect the fees and expenses of this share class. "Since Inception" performance when shown is based on the actual performance of this share class.
3. The Prudential Day One® IncomeFlex Target® Funds are designed for use with Prudential IncomeFlex Target®, an in-plan guaranteed retirement income product, and are available as insurance company separate accounts under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT. PRIAC does not guarantee the investment performance or return on contributions to those separate accounts. PRIAC is solely responsible for its financial condition and contractual obligations. Availability and terms may vary by jurisdiction, subject to regulatory approvals. Guarantees are based on the claims-paying ability of the insurance company and are subject to certain limitations, terms and conditions. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Policy forms currently available include GA-2020-IA-0805, GA-2020-IA, GA-2005-A, GA-2020-TGWB4-0805, GA-2020-TGWB5-0805, GA-2020-SAF, GA-2020-SAE-0805, SAE-REV1, GA-2020-SAE-REV1 or state variation. Policy addendums for investments in the separate accounts or to add certain Income Flex Riders may have been selected by your Plan. For more information, participants should contact the Participant Service Center at 877-PRU-2100 (877-778-2100) and request a copy of the Prudential IncomeFlex Target Important Considerations before investing. PRIAC is a Prudential Financial company.

Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise. Fund shares are not guaranteed by the U.S. Government.

Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.

Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

The historical performance shown represents the change in net asset value of an investment over a stated period assuming the reinvestment of dividends and capital gains distributions. The performance results shown do not reflect the deduction of the sales charge that may apply if the Fund shares were purchased outside of the plans or other programs. If the sales charges were reflected, performance may be lower. This is the performance that best reflects your investment experience as sales charges do not apply to your plan. At times, certain mutual fund's performance may be extraordinarily high due to investing in sectors that achieved unprecedented returns. There can be no assurance that this performance can be repeated in the future.

These model portfolios are provided as samples and not as investment recommendations. The model portfolios are based on generally accepted investment practices and take into account the principles of modern portfolio theory, in which allocations are adjusted in an effort to achieve maximum returns for a given level of risk. Participants using GoalMaker should consider other assets, income, and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to the interest in the plan, to the extent those items are not taken into account in the model before applying these models to their individual situation. **Past performance of investments or asset classes does not guarantee future results.**

In providing this information Prudential Retirement is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity. Prudential Retirement may benefit from advisory and other fees paid to it or its affiliates for managing, selling, or settling of the Prudential mutual funds and other investment products or securities offered by Prudential Retirement or its affiliates. Investment vehicles sponsored or managed by a Prudential Retirement affiliate generate more revenue for the Prudential enterprise than non-proprietary investment vehicles. Prudential Retirement's sales personnel generally receive greater compensation if plan assets are invested in proprietary investment vehicles. Prudential Retirement may benefit directly from the difference between investment earnings of Prudential Retirement's stable value funds and the amount credited to deposits in those funds. Prudential Retirement may also benefit from broker-dealer or other entities' co-sponsorship of Prudential conferences.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses before investing. The prospectus and (if available) summary prospectus contain complete information about the investment options available through your plan. Please call 877-778-2100 for a free prospectus and (if available) a summary prospectus containing this and other information about our funds. You should read the prospectus and summary prospectus (if available) carefully before investing. For variable insurance products, please read and consider carefully both the contract and fund prospectuses, if applicable, carefully before investing. It is possible to lose money by investing in securities.

Second Quarter 2020

The Prudential Stable Value Fund is a combination of a group annuity contract issued by The Prudential Insurance Company of America (PICA), Newark, NJ 07102 and an investment in the Prudential Core Intermediate Bond Fund of Prudential Trust Company's Collective Trust (the "Fund") as described below. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the plan's investment in the Fund and, if such investment is not sufficient, by the full faith and credit of PICA. The obligations of PICA and the plan's investment in the Fund are not insured by the FDIC or any other federal governmental agency. The interest rate credited on contract balances is reset pursuant to a formula contained in the group annuity contract. Past interest rates are not indicative of future rates. This product is not a mutual fund. **Contract form # GPA-200-WRAP-2004** or state variation thereof.

Prudential Retirement is compensated in connection with this product by collecting a fee which provides payment for risk, recordkeeping and distribution services from the plan's investment in the Fund. We may also collect fees on behalf of Prudential Trust Company. Prudential Retirement may use a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses, or to compensate unaffiliated third-party plan service providers. If Prudential Retirement's aggregate compensation from this product and from other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise we incur a loss.

3. The Prudential Day One® IncomeFlex Target® Funds are designed for use with Prudential IncomeFlex Target®, an in-plan guaranteed retirement income product, and are available as insurance company separate accounts under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT. PRIAC does not guarantee the investment performance or return on contributions to those separate accounts. PRIAC is solely responsible for its financial condition and contractual obligations. Availability and terms may vary by jurisdiction, subject to regulatory approvals. Guarantees are based on the claims-paying ability of the insurance company and are subject to certain limitations, terms and conditions. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Policy forms currently available include GA-2020-IA-0805, GA-2020-IA, GA-2005-A, GA-2020-TGWB4-0805, GA-2020-TGWB5-0805, GA-2020-SAF, GA-2020-SAE-0805, SAE-REV1, GA-2020-SAE-REV1 or state variation. Policy addendums for investments in the separate accounts or to add certain Income Flex Riders may have been selected by your Plan. For more information, participants should contact the Participant Service Center at 877-PRU-2100 (877-778-2100) and request a copy of the Prudential IncomeFlex Target Important Considerations before investing. PRIAC is a Prudential Financial company.

Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise. Fund shares are not guaranteed by the U.S. Government.

Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.

Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

The historical performance shown represents the change in net asset value of an investment over a stated period assuming the reinvestment of dividends and capital gains distributions. The performance results shown do not reflect the deduction of the sales charge that may apply if the Fund shares were purchased outside of the plans or other programs. If the sales charges were reflected, performance may be lower. This is the performance that best reflects your investment experience as sales charges do not apply to your plan. At times, certain mutual fund's performance may be extraordinarily high due to investing in sectors that achieved unprecedented returns. There can be no assurance that this performance can be repeated in the future.

These model portfolios are provided as samples and not as investment recommendations. The model portfolios are based on generally accepted investment practices and take into account the principles of modern portfolio theory, in which allocations are adjusted in an effort to achieve maximum returns for a given level of risk. Participants using GoalMaker should consider other assets, income, and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to the interest in the plan, to the extent those items are not taken into account in the model before applying these models to their individual situation. **Past performance of investments or asset classes does not guarantee future results.**

Second Quarter 2020

The Prudential Stable Value Fund is a combination of a group annuity contract issued by The Prudential Insurance Company of America (PICA), Newark, NJ 07102 and an investment in the Prudential Core Intermediate Bond Fund of Prudential Trust Company's Collective Trust (the "Fund") as described below. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the plan's investment in the Fund and, if such investment is not sufficient, by the full faith and credit of PICA. The obligations of PICA and the plan's investment in the Fund are not insured by the FDIC or any other federal governmental agency. The interest rate credited on contract balances is reset pursuant to a formula contained in the group annuity contract. Past interest rates are not indicative of future rates. This product is not a mutual fund. **Contract form # GPA-200-WRAP-2004** or state variation thereof.

Prudential Retirement is compensated in connection with this product by collecting a fee which provides payment for risk, recordkeeping and distribution services from the plan's investment in the Fund. We may also collect fees on behalf of Prudential Trust Company. Prudential Retirement may use a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses, or to compensate unaffiliated third-party plan service providers. If Prudential Retirement's aggregate compensation from this product and from other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise we incur a loss.

Prudential Retirement's separate accounts are available under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT. PRIAC is a Prudential Financial company.

PSLF Overview

Learn how to achieve Public Service Loan Forgiveness with Vault through their association with Prudential

Public Service Loan Forgiveness (PSLF) is a federal program that allows your federal student loan debt to be forgiven after 10 years.

You may qualify for PSLF if you...

- Make 120 months (10 years) of qualifying payments
- Are on an income-driven repayment plan (such as REPAYE)
- Work for a qualifying non-profit or government agency full-time during the 10 years
- Have direct Stafford federal loans

ABOUT YOUR WORK

Do you work for a 501(c)(3) non-profit or government organization?
You could be eligible for loan forgiveness.

No Yes

Once you click update, you will receive an email with additional details about the loan forgiveness program

Do you teach at a Title I or non-profit school?

No Yes

PSLF is an all-or-nothing program

If a person does not complete the 10 years of non-profit/government work then the **entire amount** of your student loans, plus any accrued interest, will be due.

PSLF can be a difficult process to navigate. Through Prudential, Vault access provides...

DEC Customer Obligations

September 2020

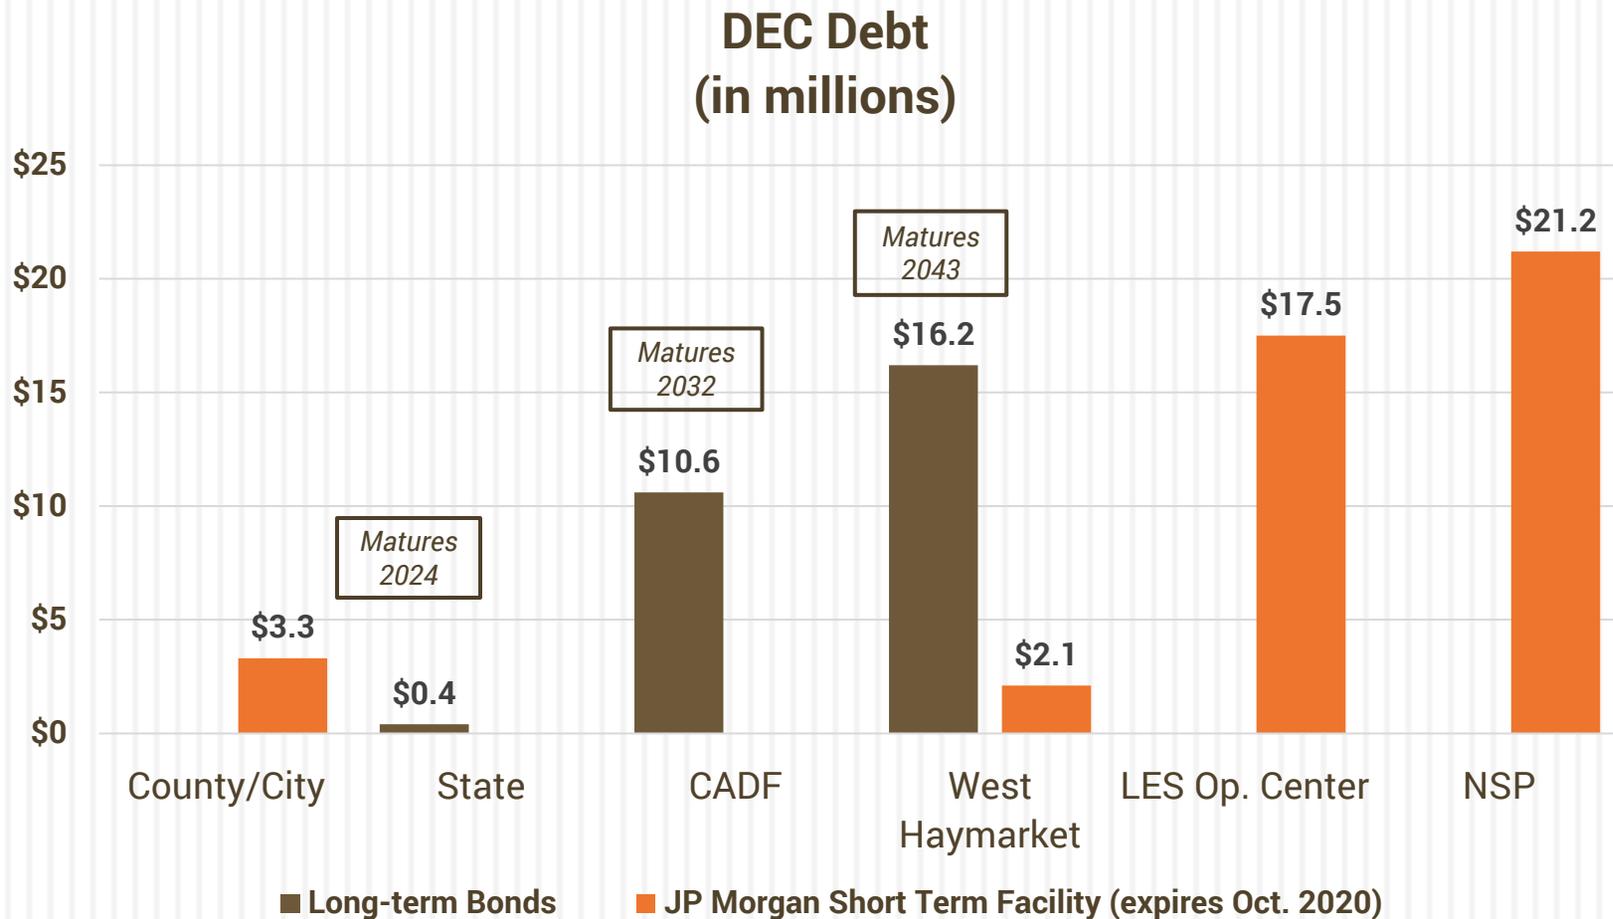

Purpose of Today's Meeting

2

- Review DEC's current debt structure and outstanding amounts
- Discuss upcoming bond issuance
- Receive customer feedback regarding proceeding with current bond structure
- LES team to report back to DEC Board at its October board meeting

DEC has \$71.3M in outstanding debt in various forms

3

DEC customers may benefit from an explanation of DEC's debt obligation

4

General Bond Resolution 10-4-G; Section 7.08 Rates, Fees and Charges

DEC must set rates to produce revenue each fiscal year at least sufficient to:

1. Pay all Operating and Maintenance Expenses
2. Pay the annual Debt Service
3. Pay all other financial obligations

Based on the above, DEC customers are subject to paying the debt for all facilities in the event of default of a fellow customer – even after their own facility's debt is paid if they elect to remain a customer of DEC.

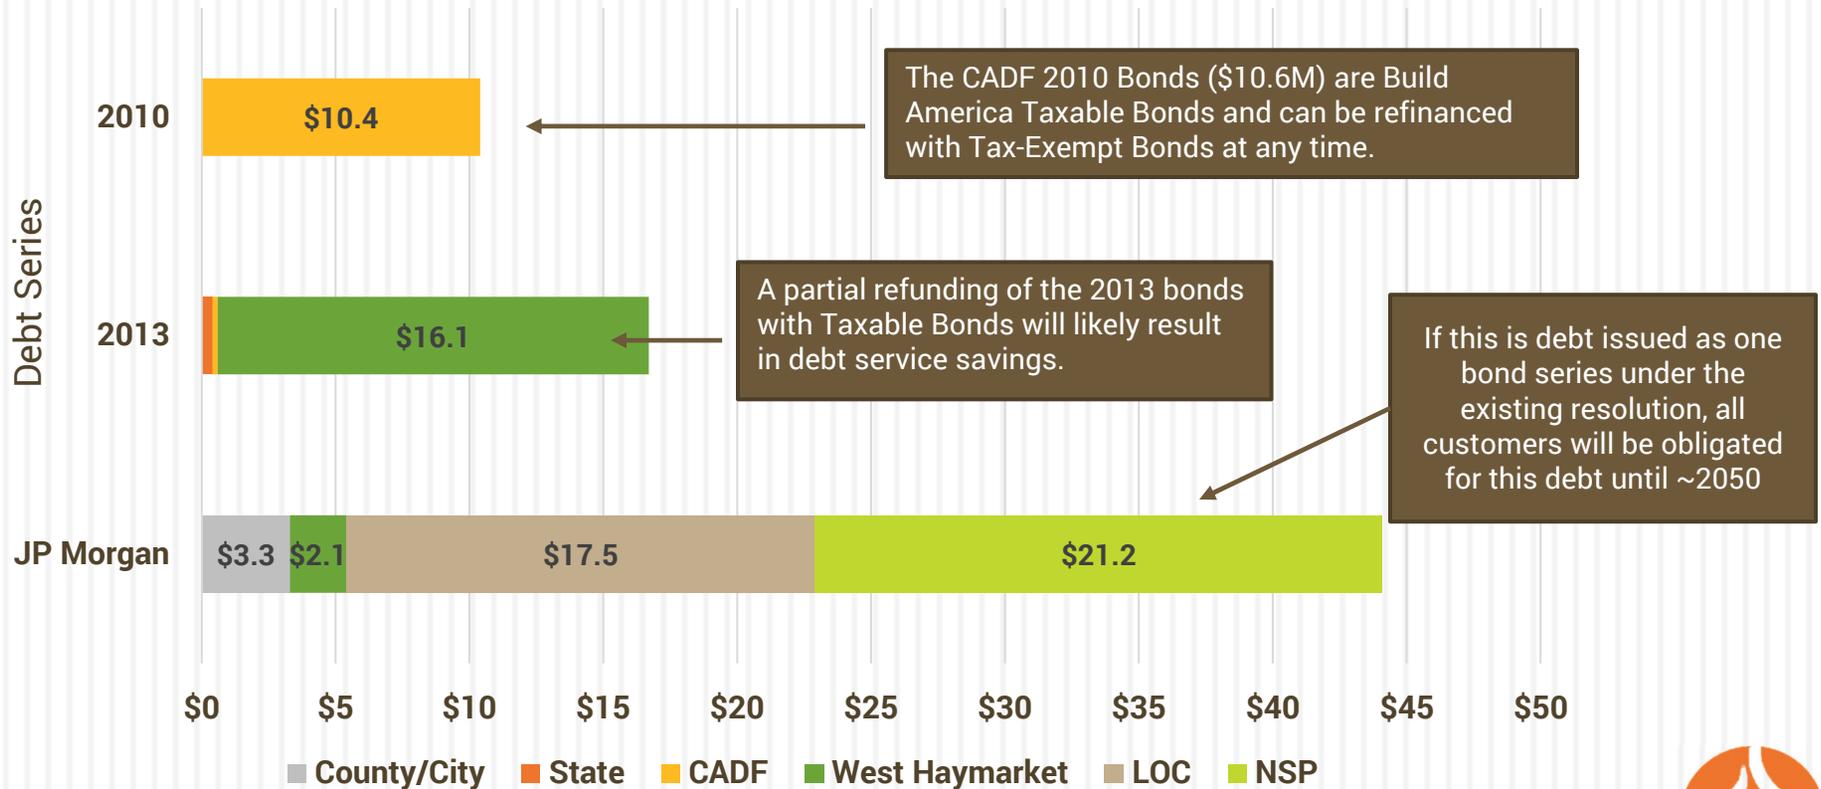

(Note: Once a customer's facility debt is paid, the customer has the option of cancelling service with DEC and assuming ownership and operation of the plant that serves them.)

This issue is exacerbated each time that additional debt is issued by DEC, potentially obligating customers for longer periods.

Opportunities exist for refinancing and restructuring of existing debt

Current Debt Structure (in millions)

DEC will move forward with existing debt structure absent customer concerns

6

It is possible that DEC Customers are comfortable with a shared obligation structure

Pros with current structure

- Cheapest for all customers
 - *One bond series results in single offering document, single bond rating, lower LES labor and attorney fees*
- Risk of default by highly rated customers is low
 - *City, County, WHM and LES should generally be comfortable with each other*
 - *State customers may be an exception – could be separate issuance*
- Simple structure to explain to bond buyers
- Maintains a utility type approach

Cons with current structure

- Risk of fellow customer default
 - *There may be an opportunity to mitigate this risk with insurance*
- Difficult to unwind structure after bonds are issued

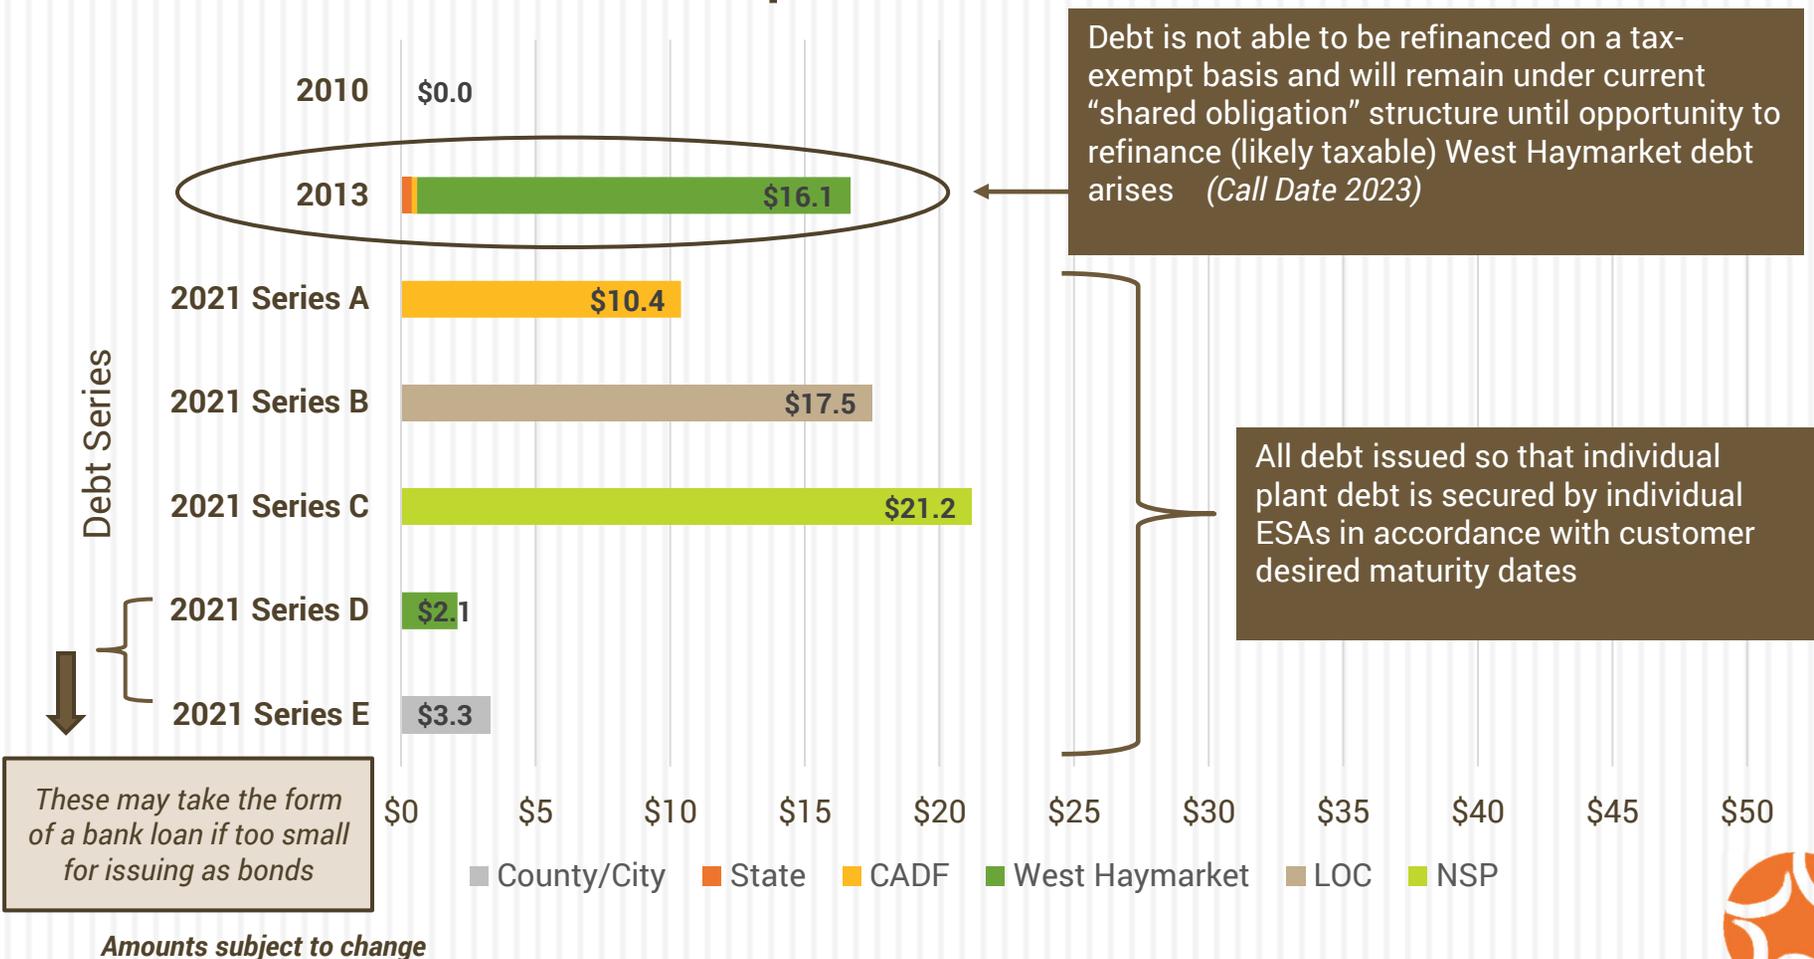

The decision on how to proceed is a long-term strategy decision that must be made carefully and with full understanding of DEC customers.

A scenario moving toward elimination of shared debt obligations creates challenges

7

Proposed Debt Structure

Execution of the plan . . .

8

1. **July (complete):** DEC Board Resolution 20-09 Extension of JP Morgan short term facility one year (to October 2021) to allow time to:
 - *Complete updated bond documents*
 - *Evaluate market and time the bond issuance appropriately*

The JP Morgan Line of Credit can be paid down at any time over the next year.

2. **July – September:**
 - LES staff discusses with customers current obligations, upcoming bond issuance structure and desired maturity dates.
3. **October Board Meeting**
 - LES updates DEC Board on customer conversation and recommends plan to move forward on financing.
 - Resolution(s) for bond and/or bank loan financings.

4. **Issue debt in Q1 or Q2 2021**

Customer feedback needed

9

- DEC Board Meeting is October 20
- Plan to continue with shared obligation structure unless customer feedback necessitates an alternate plan and DEC Board directs a change

AGREEMENT

This Agreement is entered into this 16 day of September, 2020, by and between H. Gale Williams and Tracy Garcia, 9014 S. 78th Street, Lincoln, Nebraska 68516, hereinafter referred to as "Landowner," and the County of Lancaster, Nebraska, hereinafter referred to as "the County," on behalf and at the request of the Lancaster County Engineer's Office ("Engineer"). Collectively the County and the Landowner may be referred to as "Parties," and individually each may be referred to as a "Party."

WHEREAS, general supervision and control of the public roads of the County is vested in the Board of County Commissioners of Lancaster County, Nebraska, (the "Board") pursuant to Neb. Rev. Stat. § 39-1402;

WHEREAS, the Engineer, in the Engineer's capacity as Lancaster County Highway Superintendent, has control, government, and supervision of all the public roads and bridges in the county under the general supervision and control of the Board pursuant to Neb. Rev. Stat. § 39-1507;

WHEREAS, Landowner desires to build the road frontage described herein to establish road access to the property legally described as:

A TRACT OF LAND COMPOSED OF A PORTION OF LOT 2 I.T., LOCATED IN THE NORTHEAST QUARTER OF SECTION 26, TOWNSHIP 9 NORTH, RANGE 7 EAST OF THE 6TH P.M., LANCASTER COUNTY NEBRASKA.

BEGINNING AT THE SOUTHEAST CORNER OF LOT 9, BLOCK 2, PETERSON'S ADDITION TO CHENEY, SAID POINT BEING ON THE WEST LINE OF LOT 2 I.T., LOCATED IN THE NORTHEAST QUARTER OF SECTION 26, TOWNSHIP 9 NORTH, RANGE 7 EAST OF THE 6TH P.M., SAID POINT ALSO BEING ON THE NORTH RIGHT-OF-WAY LINE OF CHESTER STREET, THENCE EASTERLY ON THE EASTERLY EXTENSION OF SAID RIGHT-OF-WAY A DISTANCE OF 65.00' TO A POINT, THENCE SOUTHERLY A DISTANCE OF 60.00' TO A POINT OF INTERSECTION WITH THE EASTERLY EXTENSION OF THE SOUTH LINE OF SAID RIGHT-OF-WAY, THENCE WESTERLY ON THE EASTERLY EXTENSION OF SAID SOUTH RIGHT-OF-WAY LINE, A DISTANCE OF 65.00' TO THE NORTHEAST CORNER OF LOT 8, BLOCK 3, PETERSON'S ADDITION TO CHENEY, SAID POINT ALSO BEING ON THE WEST LINE OF SAID LOT 2 I.T., THENCE NORTHERLY ON THE EAST LINE OF SAID RIGHT-OF-WAY, SAID LINE BEING THE WEST LINE OF SAID LOT 2 I.T., A DISTANCE OF 60.00' TO THE POINT OF BEGINNING, SAID TRACT CONTAINS A CALCULATED AREA OF 3,900 SQUARE FEET, OR 0.09 ACRES MORE OR LESS ("the Property");

WHEREAS, the Engineer has recommended that the Board facilitate Landowner's obtaining such access to the Property, under the terms and conditions herein;

WHEREAS, the Board accepts the Engineer's recommendation; and

WHEREAS, the County and the Landowner desire to set forth their understanding in writing;

NOW, THEREFORE, in consideration of the mutual covenants contained herein, it is agreed between the Parties as follows:

1) Term: The Term of this Agreement shall be from the date of execution of this Agreement by both Parties through the satisfaction of all of the terms and conditions provided herein, except that Section 5 shall survive termination of this Agreement.

2) Landowner shall:

a) Deliver to Engineer:

i) Properly executed and notarized documents of conveyance as depicted in Attachments A (warranty deed), which Attachments are attached hereto and incorporated herein by this reference; and

ii) Any filing fees required by the Lancaster County Register of Deeds to record the documents of conveyance required by this Agreement.

b) Complete the Improvements described in Attachment B, according to the specifications provided therein, which Attachment is attached hereto and incorporated herein by this reference. For purposes of this Agreement, the Improvements on those portions of the Property legally described in Attachments A and B may be referred to as "the road frontage."

i) The Improvements described in Attachment B shall be deemed complete upon final inspection and approval by the Engineer.

c) When the Improvements to the road frontage are complete and the documents of conveyance have been recorded, file with the Engineer an access application for a field drive along the road frontage to the west or to the east of the road frontage, as depicted in Attachment C, which Attachment is attached hereto and incorporated herein by this reference.

3) County shall:

a) Upon receipt of the documents of conveyance and the filing fees, record the documents of conveyance and pay the filing fees to the Lancaster County Register of Deeds.

b) Upon notice from Landowner, inspect the road frontage for completeness, and, in Engineer's sole discretion, communicate to Landowner the Engineer's approval or rejection of the road frontage to Landowner. However, Engineer shall not unreasonably reject the road frontage.

c) When the improvements in Attachment B are completed and the documents of conveyance have been recorded, then, upon receipt of Landowner's access application for a field drive along the road frontage to the west or the east, as depicted in Attachment C, process Landowner's application according to the Engineer's usual practice. Engineer shall not unreasonably reject Landowner's application.

4) The Parties expressly agree that this Agreement does not provide for County maintenance of the road frontage. County shall not maintain the road frontage unless and until:

a) All the roads in the Peterson's Addition to Cheney Subdivision, Section 26, Township 9 North, Range 7 East of the 6th P.M., are accepted for County maintenance pursuant to applicable Lancaster County Resolutions; and

b) After all the roads in the Peterson's Addition to Cheney Subdivision are accepted for County maintenance pursuant to applicable Lancaster County Resolutions, the road frontage is accepted for County maintenance pursuant to applicable Lancaster County Resolutions.

Until County accepts the road frontage for County maintenance pursuant to applicable Lancaster County Resolutions and as provided herein, maintenance of the road frontage shall be the sole responsibility of Landowner.

5) Hold Harmless: Landowner shall indemnify and hold harmless the County, its agents, employees and representatives from all claims, demands, suits, actions, payments, liability, judgments and expenses (including court-ordered attorney's fees), arising out of or resulting from the performance of this Agreement that results in bodily injury, sickness, disease, death, civil rights liability, or damage to or destruction of tangible property, including the loss of use resulting therefrom, and is caused in whole or in part by the Landowner, its employees, agents, representatives, or independent contractors, either directly or indirectly employed by Landowner. This Section 5 will not require Landowner to indemnify or hold harmless the County for any losses, claims, damages and expenses arising out of or resulting from the negligence of the County.

6) Severability: If any portion of the Agreement is held invalid, the remainder hereof shall not be affected thereby, if such remainder would then continue to conform to the terms and requirements of applicable law.

7) Governing Law: This Agreement shall be construed in accordance with and governed

by the laws of the State of Nebraska.

8) Notices: All notices, request for services, or other communications provided under this Agreement shall be in writing and shall be given to the County or the Landowner at the address set forth below or such other address as either may specify hereafter in writing:

Such notices or communication may also be delivered by hand. For the purpose of the Agreement, all notices will be deemed to have been given upon the date of the personal delivery or three days after having been deposited in the United States Post office as proved above.

9) Entire Agreement: The Parties hereby agree that this Agreement constitutes the entire understanding of the Parties and supersedes all prior contracts, agreements, and negotiations between the Parties whether verbal or written. To the extent any provisions of this Agreement conflict with the provisions of any of the attachments to this Agreement, the provisions of this Agreement shall prevail.

10) Forbearance Not Waiver: County's failure or neglect to enforce any of its rights under this Agreement will not be deemed to be a waiver of County's rights.

11) Third Party Rights: This Agreement is not intended to, and does not, create any rights or benefits on behalf of any person, whether an individual or an entity, other than the Parties to this Agreement. County shall not be obligated or liable hereunder to any person, whether an individual or an entity, other than Landowner.

10 Tax Exempt Certification Forms
Materials being purchased in this bid are tax exempt and unit prices are reflected as such. A Purchasing Agent Appointment form and a Exempt Sales Certificate form shall be issued with contract documents. (Note: State Tax Law does not provide for sales tax exemption for proprietary functions for government, thereby excluding the purchases of pipes to be installed in water lines and purchase of water meters.)

11 U.S. Citizenship Attestation
Is your company legally considered an Individual or Sole Proprietor: YES or NO

As a Vendor who is legally considered an Individual or a Sole Proprietor I hereby understand and agree to comply with the requirements of the United States Citizenship Attestation Form, available at:
<http://www.sos.ne.gov/business/notary/citizenforminfo.html>

All awarded Vendors who are legally considered an Individual or a Sole Proprietor must complete the form and submit it with contract documents at time of execution.

If a Vendor indicates on such attestation form that he or she is a qualified alien, the Vendor agrees to provide the US Citizenship and Immigration Services documentation required to verify the Vendor's lawful presence in the United States using the Systematic Alien Verification for Entitlements (SAVE) Program.

Vendor further understands and agrees that lawful presence in the United States is required and the Vendor may be disqualified or the Contract terminated if such lawful presence cannot be verified as required by Neb. Rev. Stat. 4-108.

1 2	Term Clause of Contract with Escalation/De-Escalation - 4 year I acknowledge that the term of the contract is for a four (4) year term from the date of the executed contract. Sean Flowerday, Chair
Lancaster County Board of Commissioners
555 South 10th Street, Room 110
Lincoln, NE 68508

Dear Mr. Flowerday:

Walt Broer has resigned as the County Liaison to the Library Board of Trustees of Lincoln City Libraries.

The County Board is responsible for the appointment of the County Liaison. In the past, the County Board has asked the Library Board to collect and review the resumes of interested individuals. All submissions are then forwarded to the County Board with any recommendations the Library Board may have of candidates who may best meet the needs of the Library Board at this time.

The County liaison is a non-voting member of the Library Board and must reside outside of the Lincoln city limits within Lancaster County.

Please let me know if you wish us to begin the application process following the previous procedures.

Sincerely,

A handwritten signature in blue ink, appearing to read "Pat Leach", written over a blue circular stamp.
