Air Pollution Control Advisory Board: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I was contacted by a health department employee who thought I would be a good fit for the board. I have a strong interest in helping myself and others safely conduct prescribed burns in and around Lancaster County and have been doing so for over 10 years.

Employment History

Currently a land manager with National Audubon Society for a property in Lancaster County on which we conduct prescribed burns annually. Through my employer and as a volunteer I assist with planning and participation on at least 4 prescribed burns annually in Lancaster County and many more in surrounding counties. Previously I have worked for NE Game and Parks Commission and UNL. All of these organizations give considerations to air quality and/or have air quality permit requirements when conducting prescribed burns.

Education

Bachelors Degree from UNL focusing on habitat and grassland ecology and managment, as well as various certifications and field trainings involving prescribed fire and smoke managment.

Activities

I have volunteered with TriCounty Prescribed Burn Association for over 10 years.
