

GUIDELINES FOR ADOPTING A ROAD

1. Minimum of 2 miles max of 6 miles of road to be adopted.
2. Both sides of the road to be picked up.
3. Done twice a year. (Generally once in the spring, once in the fall)
4. We have trash bags, signs, and vests that we supply if you choose to use, or you can use your own materials. We also dispose of the garbage when it's all done, just need to let us know where the bags are.

**** A big key note, if you pick up and choose not to use our materials, you still need to call it in, because we keep a record of who picks up and when.***
