JOIN US FOR A TOUR!

AUGUST 17TH
11:30AM-12:30PM

Learn how City of Lincoln staff manage to treat and recover wastewater on a guided tour of the Wastewater Treatment Facility.

Lincoln Wastewater System
2400 Theresa St, Lincoln, NE 68521
Please park in the South lot along Theresa St.

Although this is a remote event, we will be attempting to provide a Zoom option as well!

PLEASE NOTE:

Attendees will be provided a cookie and a bottle of water. Lunch will not be provided at this event. Please plan accordingly.

COMPETENCY BUCKET

Interpreting Complex Systems

This event will help you see your relevance and role in the broader system.

DID YOU KNOW?

The Theresa Street facility has a maximum capacity of recovering 28 million gallons per day. On an average day, the facility recovers about 20 million gallons of water.
